(6) An investment fund may deliver portfolio assets to a person in satisfaction of its obligations under a securities lending, repurchase or reverse purchase agreement if the collateral, cash proceeds or purchased securities that are delivered to the investment fund in connection with the transaction are held under the custodianship of the custodian or a sub-custodian of the investment fund in compliance with this Part.

SCHEDULE 2

PERSONAL INFORMATION COLLECTION POLICY

The regulators or, in Québec, the securities regulatory authority listed in Schedule 3 collect the personal information in Schedule 1 under the authority granted to them under provincial and territorial securities legislation. Under securities legislation, the regulators and, in Québec, the securities regulatory authority do not make any of the information provided in Schedule 1 public.

The regulators and, in Québec, the securities regulatory authority collect the personal information in Schedule 1 for the purpose of enabling the regulators and, in Québec, the securities regulatory authority to administer and enforce provincial and territorial securities legislation, including those provisions that require or permit the regulators and, in Québec, the securities regulatory authority to refuse to issue a receipt for a prospectus if it appears to the regulators and, in Québec, the securities regulatory authority that the past conduct of management or promoters of the Issuer affords reasonable grounds for belief that the business of the Issuer will not be conducted with integrity and in the best interests of its securityholders.

You understand that by signing the certificate and consent in Schedule 1, you are consenting to the Issuer submitting your personal information in Schedule 1 (the "Information") to the regulators and, in Québec, the securities regulatory authority and to the collection and use by the regulators and, in Québec, the securities regulatory authority of the Information, as well as any other information that may be necessary to administer and enforce provincial and territorial securities legislation. The regulators and, in Québec, the securities regulatory authority may also use a third party to process the Information, but when this happens, the third party will be carefully selected and obligated to comply with the limited use restrictions described above and with provincial and federal privacy legislation.

Warning: It is an offence to submit information that, in a material respect and at the time and in the light of the circumstances in which it is submitted, is misleading or untrue.

FORM 41-101F1 INFORMATION REQUIRED IN A PROSPECTUS

GENERAL INSTRUCTIONS

(1) *The objective of the prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.*

(2) *Terms used and not defined in this Form that are defined or interpreted in the Regulation bear that definition or interpretation. Other definitions are set out in Regulation 14-101 respecting Definitions.*

(3) *In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.*

(4) *Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this Form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*

(5) *The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Policy Statement to Regulation 41-101 respecting General Prospectus Requirements made pursuant to decision no. (indicate the number and the date of the decision adopting this Policy Statement). If technical terms are required, clear and concise explanations should be included.*

(6) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.*

(7) *Where the term "issuer" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to persons that the issuer is required, under the issuer's GAAP, to consolidate, proportionately consolidate or account for using the equity method (for example, including "subsidiaries" as that term is used in the Handbook). If it is more likely than not that a person will become an entity that the issuer will be required, under the issuer's GAAP, to consolidate, proportionately consolidate or account for using the equity method, it may be necessary to also include disclosure with respect to the person.*

(8) *An issuer that is a special purpose vehicle may have to modify the disclosure items to reflect the special purpose nature of its business.*

(9) *If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*

(10) *If an issuer discloses financial information in a preliminary prospectus or prospectus in a currency other than the Canadian dollar, prominently disclose the currency in which the financial information is disclosed.*

(11) *Except as otherwise required or permitted, include information in a narrative form. The issuer may include graphs, photographs, maps, artwork or other forms of illustration, if relevant to the business of the issuer or the distribution and not misleading. Include descriptive headings. Except for information that appears in a summary, information required under more than one Item need not be repeated.*

(12) *Certain requirements in this Form make reference to requirements in another regulation or form. Unless this Form states otherwise, issuers must also follow the instruction or requirement in the other regulation or form. These references include references to Form 51-102F2 of Regulation 51-102 respecting Continuous Disclosure Obligations. Venture issuers must include such disclosure in a preliminary prospectus or prospectus even if they are not otherwise required to file an annual information form under that regulation.*

(13) *Wherever this Form uses the word “subsidiary”, the term includes companies and other types of business organizations such as partnerships, trusts and other unincorporated business entities.*

(14) *Where requirements in this Form make reference to, or are substantially similar to, requirements in Form 51-102F2 of Regulation 51-102 respecting Continuous Disclosure Obligations, issuers may apply the general provision in subpart 1(d) of Form 51-102F2 of Regulation 51-102 respecting Continuous Disclosure Obligations. However, issuers must supplement this disclosure if the supplemented disclosure is necessary to ensure that the prospectus provides full, true and plain disclosure of all material facts related to the securities to be distributed as required under Item 29 of this Form.*

(15) *Forward-looking information included in a prospectus must comply with section 4A.2 of Regulation 51-102 respecting Continuous Disclosure Obligations and must include the disclosure described in section 4A.3 of Regulation 51-102 respecting Continuous Disclosure Obligations. In addition to the foregoing, FOFI or a financial outlook, each as defined in Regulation 51-102 respecting Continuous Disclosure Obligations, included in a prospectus must comply with Part 4B of Regulation 51-102 respecting Continuous Disclosure Obligations. If the forward-looking information relates to an issuer or other entity that is not a reporting issuer in any jurisdiction, section 4A.2, section 4A.3 and Part 4B of Regulation 51-102 respecting Continuous Disclosure Obligations apply as if the issuer or other entity were a reporting issuer in at least one jurisdiction.*

1.1. Required statement

State in italics at the top of the cover page the following:

“No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise.”

(b) describe the terms of any over-allotment option or an option to increase the size of the distribution before closing.

(3) If the distribution of the securities is to be on a best efforts basis, provide totals for both the minimum and maximum offering amount, if applicable.

(2) Adjust the ratios referred to in subsection (1) to reflect

(a) that the ratios have been calculated excluding the carrying charges for those securities that have been reflected in equity in the calculation of the issuer's interest and dividend obligations,

(b) that if those securities had been accounted for in their entirety as debt for the purpose of calculating the ratios required under subsection (1), the entire amount of the annual carrying charges for those securities would have been reflected in the calculation of the issuer's interest and dividend obligations, and

(c) the earnings coverage ratios for the periods referred to in subsection (1), calculated as though those securities had been accounted for as debt.

(4) If the earnings coverage ratio is less than one-to-one, disclose in the prospectus the dollar amount of the earnings required to achieve a ratio of one-to-one.

(5) If the prospectus includes a pro forma income statement, calculate the pro forma earnings coverage ratios for the periods of the pro forma income statement, and disclose them in the prospectus.

INSTRUCTIONS

(1) *Cash flow coverage may be disclosed but only as a supplement to earnings coverage and only if the method of calculation is fully disclosed.*

(2) *Earnings coverage is calculated by dividing an entity's earnings (the numerator) by its interest and dividend obligations (the denominator).*

(3) *For the earnings coverage calculation*

(a) *the numerator should be calculated using consolidated net income before interest and income taxes;*

(b) *imputed interest income from the proceeds of a distribution should not be added to the numerator;*

(c) *an issuer may also present, as supplementary disclosure, a coverage calculation based on earnings before discontinued operations and extraordinary items;*

(d) *for distributions of debt securities, the appropriate denominator is interest expense determined in accordance with the issuer's GAAP, after giving effect to the new debt issue and any retirement of obligations, plus the amount of interest that has been capitalized during the period;*

(e) *for distributions of preferred shares*

(i) *the appropriate denominator is dividends declared during the period, together with undeclared dividends on cumulative preferred shares, after giving effect to the new preferred share issue, plus the issuer's annual interest requirements, including the amount of interest that has been capitalized during the period, less any retirement of obligations, and*

(ii) *dividends should be grossed-up to a before-tax equivalent using the issuer's effective income tax rate; and*

(f) *for distributions of both debt securities and preferred shares, the appropriate denominator is the same as for a preferred share issue, except that the denominator should also reflect the effect of the debt being offered pursuant to the prospectus.*

(4) *The denominator represents a pro forma calculation of the aggregate of an issuer's interest obligations on*

all long-term debt and dividend obligations (including both dividends declared and undeclared dividends on cumulative preferred shares) with respect to all outstanding preferred shares, as adjusted to reflect

(a) the issuance of all long-term debt and, in addition in the case of an issuance of preferred shares, all preferred shares issued, since the date of the annual or interim financial statements;

(b) the issuance of the securities that are to be distributed under the prospectus, based on a reasonable estimate of the price at which these securities will be distributed;

(c) the repayment or redemption of all long-term debt since the date of the annual or interim financial statements, all long-term debt to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus and, in addition, in the case of an issuance of preferred shares, all preferred shares repaid or redeemed since the date of the annual or interim financial statements and all preferred shares to be repaid or redeemed from the proceeds to be realized from the sale of securities under the prospectus; and

(d) the servicing costs that were incurred, or will be incurred, in relation to the above adjustments.

There may be factors relating to a security that are not addressed by a ratings agency when they give a rating. For example, in the case of cash settled derivatives, factors in addition to the creditworthiness of the issuer, such as the continued subsistence of the underlying interest or the volatility of the price, value or level of the underlying interest may be reflected in the rating analysis. Rather than being addressed in the rating itself, these factors may be described by an approved rating organization by way of a superscript or other notation to a rating. FORM 41-101F2

INFORMATION REQUIRED IN AN INVESTMENT FUND PROSPECTUS

GENERAL INSTRUCTIONS

(1) *The objective of the prospectus is to provide information concerning the investment fund that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. This Form does not prohibit including information beyond what the Form requires. Further, certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.*

(2) *Terms used and not defined in this Form that are defined or interpreted in the Regulation must bear that definition or interpretation. Other definitions are set out in Regulation 14-101 respecting Definitions.*

(3) *In determining the degree of detail required, a standard of materiality must be applied. Materiality is a matter of judgment in the particular circumstance, and is determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the investment fund's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items must be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.*

(4) *Unless an item specifically requires disclosure only in the preliminary prospectus, the disclosure requirements set out in this Form apply to both the preliminary prospectus and the prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*

(5) *The disclosure must be understandable to readers and presented in an easy-to-read format. The presentation of information should comply with the plain language principles listed in section 4.1 of Policy Statement to Regulation 41-101 respecting General Prospectus Requirements. If technical terms are required, clear and concise explanations should be included.*

(6) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.*

(7) *The disclosure required in this Form must be presented in the order and using the headings specified in the Form. However, scholarship plans may make modifications to the disclosure items in order to reflect the special nature of their investment structure and distribution mechanism.*

(8) *Where the term "investment fund" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to the investment fund's subsidiaries and investees. If it is more likely than not that a person will become a subsidiary or investee, it may be necessary to also include disclosure with respect to the person. For this purpose, subsidiaries and investees include entities that are consolidated, proportionately consolidated, or accounted for using the equity method.*

(9) *If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*

(10) *If the term “class” is used in any item to describe securities, the term includes a series.*

(11) *Where performance data is presented in the prospectus, annual compound returns must be presented for standard applicable performance periods of 1, 3, 5 and 10 year periods and the period since inception unless otherwise specified by the requirements of this Form. Performance data for periods of less than one year must not be presented. Hypothetical or back-tested performance data must not be presented.*

(12) *An investment fund that has more than one class or series that are referable to the same portfolio may treat each class or series as a separate investment fund for the purposes of this Form, or may combine disclosure of one or more of the classes or series in one prospectus. If disclosure pertaining to more than one class or series is combined in one prospectus, separate disclosure in response to each item in this Form must be provided for each class or series unless the responses would be identical for each class or series.*

(13) *A section, part, class or series of a class of securities of an investment fund that is referable to a separate portfolio is considered to be a separate investment fund for the purposes of this Form. An investment fund that has more than one class or series of securities referable to separate portfolios may combine disclosure of one or more of the classes or series in one prospectus if each class or series is managed by the same manager. If disclosure pertaining to more than one class or series is combined in one prospectus, separate disclosure in response to each item in this Form must be provided for each class or series unless the responses would be identical for each class or series.*

1.12.Commodity Pool

(1) For a commodity pool, state in substantially the following words:

“You should carefully consider whether your financial condition permits you to participate in this investment. The securities of this commodity pool are highly speculative and involve a high degree of risk. You may lose a substantial portion or even all of the money you place in the commodity pool.

The risk of loss in trading [nature of instruments to be traded by the commodity pool] can be substantial. In considering whether to participate in the [commodity pool], you should be aware that trading [nature of instruments] can quickly lead to large losses as well as gains. Such trading losses can sharply reduce the net asset value of the [commodity pool] and consequently the value of your interest in the [commodity pool]. Also, market conditions may make it difficult or impossible for the [commodity pool] to liquidate a position.

The [commodity pool] is subject to certain conflicts of interest. The [commodity pool] will be subject to the charges payable by it as described in this prospectus that must be offset by revenues and trading gains before an investor is entitled to a return on his or her investment. It may be necessary for the [commodity pool] to make substantial trading profits to avoid depletion or exhaustion of its assets before an investor is entitled to a return on his or her investment.”

(2) For the initial prospectus, state in substantially the following words:

“The [commodity pool] is newly organized. The success of the [commodity pool] will depend upon a number of conditions that are beyond the control of the [commodity pool]. There is substantial risk that the goals of the [commodity pool] will not be met.”

(3) If the promoter, manager, or a portfolio adviser of the commodity pool has not had a similar involvement with any other publicly offered commodity pool, state in substantially the following words:

“The [promoter], [manager] [and/or] [portfolio adviser] of the [commodity pool] has not previously operated any other publicly offered commodity pools [or traded other accounts].”

(4) If the commodity pool will execute trades outside Canada, state in substantially the following words:

“Participation in transactions in [nature of instrument to be traded by the commodity pool] involves the execution and clearing of trades on or subject to the rules of a foreign market.

None of the Canadian securities regulatory authorities or Canadian exchanges regulates activities of any foreign markets, including the execution, delivery and clearing transactions, or has the power to compel enforcement of the rule of a foreign market or any applicable foreign law. Generally, any foreign transaction will be governed by applicable foreign laws. This is true even if the foreign market is formally linked to a Canadian market so that a position taken on a market may be liquidated by a transaction on another market. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs.

For these reasons, entities such as the commodity pool that trade [nature of instrument to be traded by the commodity pool] may not be afforded certain of the protective measures provided by Canadian legislation and the rules of Canadian exchanges. In particular, funds received from customers for transactions may not be provided the same protection as funds received in respect of transactions on Canadian exchanges.”

(5) State that the commodity pool is a mutual fund but that certain provisions of securities legislation designed to protect investors who purchase securities of mutual funds do not apply.

(6) Immediately after the statements required by subsections (1) – (5), state in substantially the following words:

“These brief statements do not disclose all the risks and other significant aspects of investing in the [commodity pool]. You should therefore carefully study this prospectus, including a description of the principal risk factors at page [page number], before you decide to invest in the [commodity pool].”

Although the manager has appointed [name and address of agent for service] as its agent for service of process in Canada, it may not be possible for investors to realize on judgements obtained in Canada against the manager.”

1.15. Documents Incorporated by Reference

For an investment fund in continuous distribution, other than a scholarship plan, state in substantially the following words:

“Additional information about the Fund is available in the following documents:

- the most recently filed annual financial statements;
- any interim financial statements filed after those annual financial statements;
- the most recently filed annual management report of fund performance;
- any interim management report of fund performance filed after that annual management report of fund performance.
