

**AMENDMENTS TO POLICY STATEMENT TO REGULATION 41-101  
RESPECTING GENERAL PROSPECTUS REQUIREMENTS**

1. Section 1.3 of *Policy Statement to Regulation 41-101 respecting General Prospectus Requirements* is amended by adding the following after paragraph (2):

“(3) **Accounting terms** – The Regulation uses accounting terms that are defined or used to, in Canadian GAAP applicable to publicly accountable enterprises. In certain cases, some of those terms are defined differently in securities legislation. In deciding which meaning applies, you should consider that *Regulation 14-101 respecting Definitions* provides that a term used in the Regulation and defined in the securities statute of a local jurisdiction has the meaning given to it in the statute unless: (a) the definition in that statute is restricted to a specific portion of the statute that does not govern prospectuses; or (b) the context otherwise requires.

(4) **Acceptable accounting principles other than Canadian GAAP applicable to publicly accountable enterprises**– If an issuer is permitted under *Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards* to file financial statements in accordance with acceptable accounting principles other than Canadian GAAP applicable to publicly accountable enterprises, then the issuer may interpret any reference in the Regulation to a term or provision defined or used in Canadian GAAP applicable to publicly accountable enterprises as a reference to the corresponding term or provision in the other acceptable accounting principles.

(5) **Financial statements prepared in accordance with different accounting principles** – Issuers intending to include financial statements that are prepared in accordance with different accounting principles should consider the guidance in section 2.8 of *Policy Statement to Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards*.

(6) **Rate-regulated activities** – If a qualifying entity is relying on the exemption in paragraph 5.4(1)(a) of *Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards*, then the qualifying entity may interpret any reference in the Regulation to a term or provision defined or used in Canadian GAAP applicable to publicly accountable enterprises as a reference to the corresponding term or provision in Part V of the Handbook.”

2. Subparagraph (b) of paragraph (8) of section 3.6 of the Policy Statement is amended, in the French text, by replacing the word “apparentés” with the words “parties liées”.

3. Paragraph (1) of section 4.3 of the Policy Statement is replaced with the following:

“(1) Subsection 6.3(1) of Form 41-101F1 requires disclosure of each of the principal purposes for which the issuer will use the net proceeds. If an issuer has negative cash flow from operating activities in its most recently completed financial year for which financial statements have been included in the long form prospectus, the issuer should prominently disclose that fact in the use of proceeds section of the long form prospectus. The issuer should also disclose whether, and if so, to what extent, the issuer will use the proceeds of the distribution to fund any anticipated negative cash flow from operating activities in future periods. An issuer should disclose negative cash flow from operating activities as a risk factor under subsection 21.1(1) of Form 41-101F1. For the purposes of this section, in determining cash flow from operating activities, the issuer must include cash payments related to dividends and borrowing costs.”

4. Section 4.4 of the Policy Statement is amended:

En règle générale, nous considérons qu'une entreprise mise en équivalence est significative si elle atteint les seuils des critères de significativité prévus à la rubrique 35 de l'Annexe 41-101A1, selon les états financiers de l'entreprise et de l'émetteur à la clôture de l'exercice de celui-ci.”.

5. Section 4.5 of the Policy Statement is amended, in the French text, by replacing the words “structure d'accueil” with the words “entité ad hoc émettrice”.

6. The Policy Statement is amended by adding the following after section 5.1:

**“5.1.1. Presentation of Financial Results**

Canadian GAAP applicable to publicly accountable enterprises provides an issuer two alternatives in presenting its income: (a) in one single statement of comprehensive income, or (b) in a statement of comprehensive income with a separate income statement. If an issuer presents its income using the second alternative, both statements must be filed to satisfy the requirements of this Regulation. (See subsections 32.2(1.1) and 32.3(3) of Form 41-101F1).”.

7. Section 5.2 of the Policy Statement is amended:

(1) in the first paragraph, by replacing, wherever they occur, the words “annual or interim financial statements” with the words “annual financial statements or an interim financial report”;

(2) in the second paragraph, by adding the word “financial” after “filing of the”.

8. Section 5.5 of the Policy Statement is amended by adding the following after paragraph (2):

“(3) An issuer is subject to certain additional disclosure requirements when it discloses an interim financial report for a period in the year of adopting IFRS, as set out in subparagraph 32.3(2)(e) and subsection 32.3(4) of Form 41-101F1. These requirements only apply to interim financial reports relating to periods in the year of adopting IFRS and therefore do not apply if the prospectus includes annual financial statements prepared in accordance with IFRS.

An issuer is required to provide an opening IFRS statement of financial position at the date of transition to IFRS. An issuer with, for example, a year-end of December 31, 2010 that files a prospectus for which it must include its first interim financial report in the year of adopting IFRS for the period ended March 31, 2011, must generally provide an opening IFRS statement of financial position at January 1, 2010.

An issuer must also include various reconciliations required by IFRS 1 to explain how the transition from previous GAAP to IFRS has affected its reported financial position, financial performance and cash flows. In the first interim period IFRS 1 requires certain additional reconciliations which relate to annual periods and the date of transition to IFRS. Where an issuer that was not a reporting issuer in at least one jurisdiction immediately before filing the prospectus includes an interim financial report in respect of

the second or third interim period in the year of adopting IFRS, subsection 32.3(4) of Form 41-101F1 requires these additional reconciliations to be included in the prospectus. Alternatively, pursuant to subsection 32.3(4) of Form 41-101F1, the issuer may include the first interim financial report in the year of adopting IFRS as this report includes the required reconciliations.

These additional reconciliations may be summarized as follows:

- reconciliations of the issuer's equity presented in accordance with previous GAAP to its equity in accordance with IFRS for the date of transition to IFRS (January 1, 2010 in the above-noted example);
- reconciliations of the issuer's equity presented in accordance with previous GAAP to its equity in accordance with IFRS for the end of the latest period presented in the issuer's most recent annual financial statements in accordance with previous GAAP (December 31, 2010 in the above-noted example); and
- a reconciliation of the issuer's total comprehensive income (or total profit or loss) presented in accordance with previous GAAP to its total comprehensive income in accordance with IFRS for the latest period in the issuer's most recent annual financial statements presented in the prospectus in accordance with previous GAAP (year ended December 31, 2010 in the above-noted example).

The reconciliations summarized above must give sufficient detail to enable investors to understand the material adjustments to the statement of financial position, statement of comprehensive income and statement of cash flows.”.

9. Section 5.6 of the Policy Statement is amended:

(1) by replacing, wherever they occur in the French text, the words “vérifiés”, “vérifier” and “la vérification” with, respectively, the words “audités”, “auditer” and “l’audit”;

This requirement applies to all financial statements included in the long

form prospectus under Item 32 of Form 41-101F1, including financial statements from entities acquired or to be acquired that are the primary business or the predecessor of the issuer. For greater clarity, subsections 3.12(3) and 4.12(6) of Regulation 52-107 only apply to financial statements included in the long form prospectus pursuant to Item 35 of Form 41-101F1. Relief may be granted to non-reporting issuers in appropriate circumstances to permit the auditor's report on financial statements to contain a qualified opinion relating to opening inventory if there is a subsequent audited period of at least six months on which the auditor's report expresses an unmodified opinion and the business is not seasonal. Issuers requesting this relief should be aware that Regulation 51-102 requires an issuer's comparative financial statements be accompanied by an auditors' report that expresses an unmodified opinion."

The ability to present acquisition statements using Canadian GAAP applicable to private enterprises would not extend to a situation where an entity acquired or to be acquired is considered the primary business or the predecessor of the issuer."

13. Paragraph 7 of section 6.4 of the Policy Statement is replaced with the following:

“(7) We note that the Investment Industry Regulatory Organization of Canada has adopted IROC Rule 29.13 which is consistent with the above discussion relating to pre-marketing of bought deals of equity securities.
