DEFINITIONS

All fields must be completed. If you do not offer products in a class of insurance, simply indicate 0.

Question 1:

The information requested in this section is limited to claims that have been initiated for policies that are or were in force at the time the claim was incurred.

A claim is considered opened or reported when the insurer has all the documents required to process the claim. The purpose of this question is to determine the processing time of a claim. If the date of receipt of the documents is not available, please use your average time to receive the documents to determine when the claim is "opened" or "reported" and indicate in the box "General Comments" the method used to determine the date of receipt of the documents.

"Amount paid in benefits during the period" is limited to claims that have been closed.

A claim is considered denied if the insurer refuses to pay any amount of the claim. In those cases, no indemnity payment is made but payment of certain fees (expert fees, claim adjuster fees, etc.) may be made.

"Average days to final payment" does not include periodic payments (ex. long-term disability) or payments made in installments.

For "Number of claims closed within (period) days from date of claim reported", the initial payment of a periodic payment / first installment of a payment is to be reported.
