

POLICY STATEMENT 12-203 RESPECTING CEASE TRADE ORDERS FOR CONTINUOUS DISCLOSURE DEFAULTS

PART 1 INTRODUCTION

1.1. What is the purpose of the policy statement?

This policy statement provides guidance to issuers, investors and other market participants as to how the Canadian Securities Administrators (CSA or we) will generally respond to certain types of serious continuous disclosure defaults (referred to as specified defaults in this policy statement) by a reporting issuer.

The policy statement provides guidance on the following questions:

1. When will a CSA securities regulatory authority or regulator (a CSA regulator) respond to a specified default by issuing a cease trade order (CTO)? What do we mean by the term “CTO”? Why do we issue CTOs?
2. When will a CSA regulator respond to a specified default by issuing a management cease trade order (MCTO)? What do we mean by the term “MCTO”? Why do we issue MCTOs?
3. If a CSA regulator issues an MCTO, what other actions will we ordinarily take in these circumstances? What do we expect from defaulting reporting issuers in these circumstances?

The guidance in this policy statement represents general guidance only. Each CSA regulator will decide how to respond to a specified default, including whether to issue a CTO (and if so, whether to issue a general CTO or an MCTO), on a case-by-case basis after considering all relevant facts and circumstances.

1.2. What is the scope of the policy statement?

(a) Application

This policy statement describes how the CSA regulators will ordinarily respond to a specified default by a reporting issuer. The term “specified default” is defined in part 2 of this policy statement and is based on the harmonized list of deficiencies developed by the CSA and described in CSA Notice 51-322 *Reporting Issuer Defaults* (CSA Notice 51-322). This notice describes the list of deficiencies that will generally result in a reporting issuer being noted in default of the securities laws of a particular jurisdiction.

The definition of “specified default” does not include certain defaults described in CSA Notice 51-322, such as a failure to file a material change report, or a failure to file technical disclosure or other reports required by *Regulation 43-101 respecting Standards of Disclosure for Mineral Projects* (Regulation 43-101) or *Regulation 51-101 respecting Standards of Disclosure for Oil and Gas Activities* (Regulation 51-101).

We have omitted these items from the definition because these filings will generally be non-periodic in nature, and in some cases it may be unclear whether the issuer has triggered a filing requirement. However, a CSA regulator may apply this policy statement if a reporting issuer is in default of a continuous disclosure requirement that is not included in the definition of specified default.

Similarly, a CSA regulator may apply this policy statement if a reporting issuer has made a required filing but the required filing is deficient in terms of content (a content deficiency). Examples of content deficiencies are set out in section 2 of CSA Notice 51-322.

(b) Mutual reliance principles

In deciding how to respond to a specified default, the CSA regulators will generally follow principles of mutual reliance. The issuer's principal regulator (PR) will normally be the one to decide whether to issue a CTO. The determination as to which regulator will act as PR will be based upon the principles set out in part 3 of *Policy Statement 11-203 respecting Process for exemptive relief applications in multiple jurisdictions* (Policy Statement 11-203). This means that the PR will usually be the regulator in the jurisdiction where the reporting issuer's head office is located.

An issuer that wishes to apply for an MCTO under this policy statement must apply in the issuer's PR jurisdiction and send a copy of the application to the non-principal regulators in each other jurisdiction in which it is a reporting issuer. The issuer's PR will determine whether to issue a general CTO or an MCTO and, in the case of the latter, the appropriate scope of the MCTO. Non-principal regulators will ordinarily make the same decision as the PR on these questions. However, each regulator may still impose a general CTO if it believes it is appropriate.

(c) MCTOs issued under this policy statement are not a "penalty" or "sanction" for disclosure purposes

The CSA regulators do not consider MCTOs issued under this policy statement to be a "penalty or sanction" for the purposes of disclosure obligations in Canadian securities legislation relating to penalties or sanctions. They are not issued as part of an enforcement process and the regulators do not intend them to suggest a finding of fault or wrongdoing on the part of any individual named in the MCTO. For example, a defaulting issuer's board of directors might invite an individual to serve as an officer or director of the issuer to assist the issuer in remedying its default. The individual might have no prior involvement with the defaulting reporting issuer. The fact that the PR may subsequently name the individual in an MCTO does not mean the individual had any responsibility for the default, which occurred before the individual joined the issuer.

However, issuers are required to disclose MCTOs issued under this policy statement in accordance with the following disclosure requirements:

- Section 16.2 of Form 41-101F1 *Information Required in a Prospectus*,
- [Section 16.1 of Form 41-101F4 *Information Required in a Venture Issuer Prospectus*](#),
- Item 16 of Form 44-101F1 *Short Form Prospectus*,
- Paragraph 10.2(1) of Form 51-102F2 *Annual Information Form*, ~~and~~
- [Subsection 29\(3\) of Form 51-103F1 *Annual and Mid-Year Reports*](#),
- Paragraph 7.2 of Form 51-102F5 [Information Circular](#), ~~and~~
- [Subsection 14\(1\) of Form 51-103F4 *Information Circular*](#).

If an issuer is required to include disclosure of an MCTO in a public filing, the issuer may supplement the disclosure with additional information explaining the circumstances of the MCTO.

(d) Regulators may consider other action, including enforcement action

If a reporting issuer is in default of a continuous disclosure requirement, the CSA regulators may also consider taking enforcement action against the reporting issuer, the directors and officers of the reporting issuer, or any other responsible party. Accordingly,

nothing in this policy statement should be interpreted as limiting the discretion of the CSA regulators in responding to such a default through enforcement action.

PART 2 DEFINITIONS AND INTERPRETATION

In this policy statement:

“alternative information guidelines” means the guidelines relating to a default announcement and default status report described in part 4 of this policy statement;

“cease trade order” and “CTO” mean an order under a provision of Canadian securities legislation, set out in Appendix A, that prohibits trading in securities of a reporting issuer, whether direct or indirect, by the persons identified in the order, for such period as is specified in the order;

“default announcement” means a news release and report as described in section 4.3 of this policy statement;

“default status report” means a news release as described in section 4.4 of this policy statement;

“management cease trade order” and “MCTO” mean a CTO issued under this policy statement that prohibits trading in securities of a reporting issuer, whether direct or indirect, by

- (a) the chief executive officer (CEO) of the reporting issuer,
- (b) the chief financial officer (CFO) of the reporting issuer,
- (c) at the discretion of the PR, the members of the board of directors of the reporting issuer or other persons who had, or may have had, access directly or indirectly to any material fact or material change with respect to the reporting issuer that has not been generally disclosed, and
- (d) in the case of a reporting issuer that does not have a CEO, CFO and/or a board of directors, individuals who perform similar functions to any of such positions;

“principal regulator” and “PR” mean an issuer’s principal regulator as determined in accordance with part 3 of *Policy Statement 11-203 respecting Process for exemptive relief applications in multiple jurisdictions* (Policy Statement 11-203).

“specified default” means a failure by a reporting issuer to comply with a specified requirement; and

“specified requirement” means the requirement to file within the time period prescribed by securities legislation

- (a) annual financial statements;
- (b) interim financial report;
- (c) annual or interim management's discussion and analysis (MD&A) or annual or interim management report of fund performance (MRFP);
- (d) annual information form (AIF);

[\(d.1\) annual report,](#)

[\(d.2\) mid-year report,](#) or

(e) certification of filings under *Regulation 52-109 respecting Certification of Disclosure in Issuers' Annual and Interim Filings*.

In certain jurisdictions, the CSA regulators may issue cease trade orders and management cease trade orders that prohibit both trading in and acquisitions of securities of a reporting issuer. In these jurisdictions, references in this policy statement to a "trade" refers to both a trade in or acquisition of securities of the reporting issuer.

In Quebec, "trade" is not defined in the Securities Act (QSA). This policy statement covers all securities transactions that may be the object of an order provided for in paragraph 3 of section 265 of the QSA.

PART 3 REGULATORY RESPONSES TO A SPECIFIED DEFAULT

3.1. Issuance of a general CTO or an MCTO

In the jurisdictions where the issuer is a reporting issuer, the CSA regulators will respond to a specified default by noting the issuer in default on their default lists. For more information about the CSA default lists, please refer to CSA Notice 51-322.

The CSA regulators will then ordinarily respond to a specified default in one of two ways:

- The issuer's PR may issue a CTO.
- Alternatively, if an issuer applies under part 4 of this policy statement, and demonstrates that it is able to comply with this policy statement, the issuer's PR may issue an MCTO instead.

The issuer's PR will decide whether to proceed with a CTO (including whether to issue an MCTO) after considering the principles, factors and criteria described in part 4 of this policy statement and any other facts and circumstances the PR considers relevant. If the issuer's PR decides an MCTO is appropriate, it will similarly decide whether to extend it to the issuer's board of directors or other persons.

If the issuer's PR issues a CTO, the non-principal regulators in the jurisdictions in which the issuer is a reporting issuer will generally issue similar CTOs to ensure the CTO is effective in their jurisdictions. If the issuer's PR issues an MCTO, the non-principal regulators in the jurisdictions in which the issuer is a reporting issuer will generally issue similar MCTOs in respect of persons named in the MCTO who reside in their jurisdiction.

The CSA regulators will generally not grant exemptive relief to a reporting issuer to extend a continuous disclosure filing deadline to enable an issuer to avoid a default. The deadlines relating to the specified requirements represent the CSA's view as to reasonable and appropriate deadlines that should apply to reporting issuers in a consistent manner. While we recognize that issuers may sometimes face difficulties in complying with filing deadlines due to circumstances beyond their control, we do not believe it is appropriate to vary a filing deadline simply to allow an issuer to avoid being in default. The CSA regulators will consider the issuer's circumstances in deciding what action, if any, is appropriate to respond to a default.

If a defaulting reporting issuer is insolvent and is the subject of a stay of proceedings or similar order under the Companies' Creditors Arrangement Act, R.S.C. 1985, c. C-36, as amended, or the Bankruptcy and Insolvency Act, R.S.C. 1985, c. B-3, as amended, or similar legislation, the CSA regulators will generally note the issuer in default but take no other action until the relevant stay is lifted, provided the issuer complies with the alternative information guidelines. In situations where this is not the case, or where the default is expected to continue for an extended period, the CSA regulators will determine whether further action is warranted after considering all relevant factors and circumstances.

3.2. Why do we issue cease trade orders in response to a specified default?

Historically, if a reporting issuer has failed to comply with a specified requirement, such as the requirement to file audited annual financial statements, the CSA regulators have generally responded to this default by issuing a CTO.

The CSA regulators have historically taken this action for the following reasons:

- Without adequate continuous disclosure, there may not be sufficient information in the securities marketplace to properly support informed trading decisions regarding securities of the issuer.
- The integrity and fairness, or confidence in the integrity and fairness, of the capital markets, may be compromised if trading in securities of the reporting issuer is permitted to continue during the period of default (when there is heightened potential that some people may have access to information that would normally be reflected in the continuous disclosure document that the reporting issuer is in default of filing).

We acknowledge that a CTO can impose a burden on issuers and investors because

- existing investors are unable to sell their securities, and prospective investors are unable to purchase securities of the issuer, while the CTO remains in effect, and
- issuers are generally unable to access financing while the CTO remains in effect.

Nevertheless, if a reporting issuer is in default of a specified requirement, our overriding concern is generally investor protection. Investors and prospective investors should be able to make an informed investment decision about the securities of the defaulting reporting issuer.

The practice of responding to a specified default with a CTO has a significant positive effect on general compliance. The prospect of a CTO creates a strong incentive for the reporting issuer's management to ensure that the reporting issuer does not go into default. Similarly, the issuance of a CTO once the issuer is in default creates a strong incentive on the part of management to diligently rectify the filing default.

Finally, a CTO represents a rapid, public response by the CSA regulators to a serious continuous disclosure default by a reporting issuer. This sends a message to issuers and investors that filing deadlines are important and that there will be serious consequences for a failure to file, helping to preserve integrity and fairness in the securities marketplace.

PART 4 APPLICATIONS FOR AN MCTO AS AN ALTERNATIVE TO A GENERAL CTO

4.1. Eligibility criteria

A CTO is an appropriate response to a specified default that is not likely to be rectified within a relatively short time and where the circumstances leading to the default are likely to continue. These circumstances include issuers that no longer have an active business, are insolvent, or have lost a majority of their board of directors.

If the outstanding filing is expected to be filed relatively quickly, and the default is not expected to be recurring, an MCTO may be an appropriate response to the default.

Issuers satisfying all of the following criteria are usually eligible for an MCTO:

- The outstanding filings will be filed as soon as they are available and within a reasonable period. In most cases, we expect this to be within two months. However, in

exceptional circumstances, as determined by the PR, we may permit an issuer to take longer than two months to address the default.

- The issuer is generating revenue from its principal business or, if it is in the development stage, the issuer is actively pursuing the development of its products or properties.

- The issuer has the necessary financial and human resources, including a reasonable number of directors and officers in place, to address the default in a timely and effective manner and comply with all other continuous disclosure requirements (other than requirements reasonably linked to the specified default) for the duration of the default.

- The issuer's securities are listed on a Canadian stock exchange and there is an active, liquid market for those securities. Thinly traded issuers will generally not be considered eligible for an MCTO.

- The issuer is not on the defaulting reporting issuer list in any CSA jurisdiction for any reason other than the failure to comply with the specified requirement (and any other requirement that is reasonably linked to the specified requirement).

4.2. Contents of application

If an issuer satisfies the eligibility criteria set out above, it should contact its PR at least two weeks before the due date for the required filings and apply in writing for an MCTO instead of a general CTO against the issuer.

We acknowledge that there will be situations where an issuer, notwithstanding the exercise of reasonable diligence, will be unable to determine whether it can comply with a specified requirement at least two weeks before its due date. However, we believe that, in most cases, an issuer exercising reasonable diligence should be able to make this determination at least two weeks in advance of the deadline.

If an issuer, notwithstanding the exercise of reasonable diligence, is not able to make this determination at least two weeks before its due date, the issuer should include a brief explanation of the reasons for the delayed filing in its application.

In its application, the issuer should

- identify the specified default, the reasons for the default and the anticipated duration of the default;
- explain how the issuer satisfies each of the eligibility criteria described above;
- set out a detailed remediation plan that explains how the issuer proposes to remedy the default and includes a realistic timetable for remedying the default;
- include consents signed by the CEO and the CFO (or equivalent) to the issuance of an MCTO (see Appendix C);
- include a copy of the proposed or actual default announcement (see section 4.3);
- confirm that the issuer will comply with the alternative information guidelines described in sections 4.3 and 4.4 of this policy statement;
- include a copy of the issuer undertaking described in section 4.7 of this policy statement; and

- briefly describe the issuer's blackout policies and other policies and procedures relating to insider trading.

The issuer should send copies of the application to the regulators in all jurisdictions in which the issuer is a reporting issuer.

We will consider an issuer's history of complying with its continuous disclosure obligations when evaluating the issuer's request for an MCTO.

4.3. Alternative information guidelines – Default Announcement

If a reporting issuer determines that it will not comply, or subsequently determines that it has not complied, with a specified requirement, this will often represent a material change that the issuer should immediately communicate to the securities marketplace by way of a news release and material change report in accordance with part 7 of *Regulation 51-102 respecting Continuous Disclosure Obligations* (Regulation 51-102) or part 6 of Regulation 51-103 respecting Ongoing Governance and Disclosure Requirements for Venture Issuers (Regulation 51-103), as applicable. In determining whether a failure to comply with a specified requirement is a material change, the issuer should consider both the events leading to the failure and the failure itself.

If the circumstances leading to the default, or the default, do not represent a material change, the issuer should nevertheless consider whether the circumstances involve important information that should be immediately communicated to the marketplace by way of news release.

The regulators will generally not exercise their discretion to issue an MCTO unless the issuer issues and files a default announcement containing the information set out below. If the default involves a material change, the material change report may contain this information, in which case a separate default announcement is not necessary. The default announcement should be authorized by the CEO or the CFO (or equivalent) of the reporting issuer, be approved by the board or audit committee and be prepared and filed with the CSA regulators on SEDAR in the same manner as a news release and material change report referred to in part 7 of Regulation 51-~~102~~ or part 6 of Regulation 51-103, as applicable. An issuer will usually be able to determine that it will not comply with a specified requirement at least two weeks before its due date and, as soon as it makes this determination, should issue the default announcement.

The default announcement should:

- (i) identify the relevant specified requirement and the (anticipated) default;
- (ii) disclose in detail the reason(s) for the (anticipated) default;
- (iii) disclose the current plans of the reporting issuer to remedy the default, including the date it anticipates remedying the default;
- (iv) confirm that the reporting issuer intends to satisfy the provisions of the alternative information guidelines so long as it remains in default of a specified requirement;
- (v) disclose relevant particulars of any insolvency proceeding to which the reporting issuer is subject, including the nature and timing of information that is required to be provided to creditors, and confirm that the reporting issuer intends to file with the CSA regulators throughout the period in which it is in default, the same information it provides to its creditors when the information is provided to the creditors and in the same manner as it would file a material change report under part 7 of Regulation 51-102 or part 6 of Regulation 51-103, as applicable; and

(vi) subject to section 4.5 of this policy statement, disclose any other material information concerning the affairs of the reporting issuer that has not been generally disclosed.

A default announcement is not needed if the issuer is in default of a previous specified requirement, has followed the provisions of section 4.3 regarding a default announcement of that earlier default and is complying with the provisions of section 4.4 regarding default status reports.

4.4. Alternative information guidelines – Default Status Reports

After the default announcement, and during the period of the MCTO, the regulators will generally exercise their discretion to issue a general CTO unless the defaulting reporting issuer issues bi-weekly default status reports, in the form of news releases, containing the following information:

(i) any material changes to the information contained in the default announcement or subsequent default status reports, including a description of all actions taken to remedy the default and the status of any investigations into any events which may have contributed to the default;

(ii) particulars of any failure by the defaulting reporting issuer in fulfilling its stated intentions with respect to satisfying the provisions of the alternative information guidelines;

(iii) information regarding any (anticipated) specified default subsequent to the default which is the subject of the default announcement; and

(iv) subject to section 4.5 of this policy statement, any other material information concerning the affairs of the reporting issuer that has not been generally disclosed.

Where there are no changes otherwise required to be disclosed in items (i) to (iv), this fact should be disclosed in a default status report.

To keep the market continuously informed of any developments during the period of default, the issuer should issue default status reports every two weeks following the default announcement. If a CSA regulator, at any time, issues a general CTO against an issuer, default status reports will no longer be necessary.

Every default status report should be prepared, authorized, filed and communicated to the securities marketplace in the same manner as that specified in section 4.3 for a default announcement.

4.5. Confidential material information

The alternative information guidelines in this policy statement supplement the material change reporting requirements in Regulation 51-102 [and Regulation 51-103](#) and should be interpreted in a similar manner. Similar to the procedures in Regulation 51-102, [102 and Regulation 51-103](#), an issuer may omit confidential material information from default status announcement or default status reports if in the opinion of the issuer, and if that opinion is arrived at in a reasonable manner, disclosure of the applicable material information would be unduly detrimental to the interests of the reporting issuer.

4.6. Compliance with other continuous disclosure requirements

The alternative disclosure described in sections 4.3 and 4.4 of this policy statement supplement the issuer's disclosure record during the period of default. It does not provide an alternative to the continuous disclosure requirements under Canadian securities legislation.

If a reporting issuer is in default of a specified requirement, the issuer must still comply with all other applicable continuous disclosure requirements, other than requirements reasonably linked to the specified requirement in question. For example, an issuer that has not filed its financial statements on time will also be unable to comply with the requirement to file management's discussion and analysis under Regulation 51-102. However, failure to comply with a requirement to file audited financial statements in accordance with the requirements of part 4 of Regulation 51-102 does not excuse compliance with other requirements of Regulation 51-102 such as the requirement to file an Annual Information Form in accordance with part 6 of Regulation 51-102 or material change reports in accordance with part 7 of Regulation 51-102. [The same holds true for venture issuers subject to the requirements in Regulation 51-103; if a venture issuer is in default of a specified requirement, it must still comply with all other continuous disclosure requirements.](#)

4.7. Issuer undertaking to cease certain trading activities

The reporting issuer should include with the application an undertaking that, for so long as the issuer is in default of the specified requirement in question, the issuer will not, directly or indirectly, issue securities to or acquire securities from an insider or employee of the issuer except in accordance with legally binding obligations to do so existing as of the date of the continuous disclosure default. The issuer should address the undertaking to the securities regulatory authorities of each jurisdiction in which the issuer is a reporting issuer.

4.8. Information respecting defaulting reporting issuers subject to insolvency proceedings

As explained in section 3.1, if a defaulting reporting issuer is insolvent and under Court protection, the CSA will generally note the issuer in default but take no other action until the relevant stay is lifted provided the issuer complies with the alternative information guidelines.

If a defaulting reporting issuer is the subject of insolvency proceedings but not under court protection, we will consider an application for an MCTO in cases where

- (a) the issuer retains title to its assets,
- (b) the issuer's directors and officers continue to manage the affairs of the issuer, and
- (c) the issuer
 - (i) files a default announcement,
 - (ii) files default status reports,
 - (iii) files a report disclosing the information it provides to its creditors
 - simultaneously with delivery to its creditors, and
 - in the same manner as a report of a material change referred to in part 7 of Regulation 51-102; and
 - (iv) otherwise complies with this policy statement.

If the issuer chooses to file the information provided to creditors with a material change report, then, for purposes of filing on SEDAR, this must be contained in the same electronic document as the material change report.

4.9. Financial information in default announcements and default status reports

Any unaudited financial information that is communicated to the marketplace should, except in certain circumstances involving insolvency, be directly derived from financial statements prepared and presented in accordance with generally accepted accounting principles. In default announcements and default status reports, this information should be accompanied by cautionary language that the information has been prepared by management of the defaulting reporting issuer and is unaudited.

4.10. Default correction announcement

Once the specified default is remedied, the reporting issuer should consider communicating that information to the securities marketplace in the same manner as that specified in this policy statement for a default announcement.

PART 5 TRADING BY MANAGEMENT AND OTHER INSIDERS DURING THE PERIOD OF DEFAULT

Issuers in default of a specified requirement should closely monitor and generally restrict trading by management and other insiders due to the increased risk that such persons may have access to material undisclosed information. Such information may include information that would otherwise have been reflected in the continuous disclosure filing that is the subject of the default, information about any investigation into the events that may have led to the default, and information about the status of remediation activities.

We remind management and other insiders that they should carefully consider the insider trading prohibitions under securities legislation before entering into any transaction involving securities of the issuer in default.

The CSA have articulated in National Policy 51-201 Disclosure Standards detailed best practices for issuers for disclosure and information containment and have provided an interpretation of insider trading laws. Issuers should adopt written disclosure policies to assist directors, officers and employees and other representatives in discharging timely disclosure obligations. Written disclosure policies should also provide guidance on how to maintain the confidentiality of corporate information and to prevent improper trading on inside information. Adopting the CSA best practices may assist issuers to take all reasonable steps to preserve the confidentiality of non-public information.

We also remind issuers and other market participants that an officer or other insider of a reporting issuer in default will generally be unable to sell securities acquired from the issuer on an exempt basis because of the resale restrictions in section 2.5(2)(7) and s. 2.6(3)(5) of *Regulation 45-102 respecting Resale of Securities*.

PART 6 EFFECT OF A CTO ISSUED BY A REGULATOR IN ONE JURISDICTION ON TRADING IN ANOTHER JURISDICTION

Presently, all marketplaces (including exchanges, alternative trading systems and quotation and trade reporting systems) in Canada have retained Investment Industry Regulatory Organization of Canada (IIROC) as their regulation services provider. Under the Universal Market Integrity Rules (UMIR), which have been adopted by IIROC, if a securities commission issues a CTO with respect to an issuer whose securities are traded on a marketplace, IIROC imposes a regulatory halt on trading of those securities on all marketplaces for which IIROC acts as the regulation services provider. Such halt is taken whether or not the CSA regulator that issued the CTO is the PR of the issuer and once the halt is imposed by IIROC, no person subject to UMIR may trade those securities on any marketplace in Canada, over-the-counter or on a foreign organized regulated market. Therefore, the remainder of the guidance in this part deals with market participants who are not otherwise subject to the jurisdiction of IIROC.

Market participants should be cautious about trading in a security in one jurisdiction if a CSA regulator in another jurisdiction has issued a CTO. In most cases, if an issuer's PR issued a CTO in response to a failure by the issuer to comply with a material continuous disclosure requirement, the non-principal regulator will issue a reciprocal CTO on similar terms and conditions.

Continuous disclosure obligations reflect the minimum requirements we feel are necessary to generate sufficient public disclosure to permit investors to make informed investment decisions. The issuance of a CTO by the issuer's PR will generally mean that an issuer has not met the required standard and that there is a significant risk of harm to investors if trading is allowed to continue. Accordingly, market participants should carefully consider the existence of the material continuous disclosure default, and the determination of the issuer's PR, before effecting a trade in a non-principal regulator jurisdiction. Although a trade in one jurisdiction may not violate a CTO in another jurisdiction, the trading activity may still be contrary to the public interest and therefore subject to enforcement or other administrative proceedings.

If a market participant intends to execute a trade in securities of a cease-traded issuer on an exchange or marketplace outside of Canada, the market participant should carefully consider whether the trade may nevertheless be considered to be or include a trade within one or more jurisdictions in Canada where a CTO is in effect. For example, a transaction may be a trade in another jurisdiction if "acts in furtherance of the trade" occur within that jurisdiction. A transaction may also be a trade in another jurisdiction if there are connecting factors or other facts and circumstances that indicate that the securities may not "come to rest" outside Canada but may be resold to investors in a jurisdiction where a CTO is in effect.

PART 7 EFFECTIVE DATE

This policy statement comes into force on September 1, 2008.

**APPENDIX A
STATUTORY PROVISIONS FOR CEASE TRADE ORDERS**

Jurisdiction	Legislative reference
British Columbia	Sections 161 and 164 of the Securities Act
Alberta	Sections 33.1 and 198 of the Securities Act
Saskatchewan	Section 134.1 of The Securities Act, 1988
Manitoba	Sections 147.1 and 148 of the Securities Act
Ontario	Section 127 of the Securities Act
Quebec	Section 265 of the Securities Act
Newfoundland and Labrador	Section 127(1) of the Securities Act
Nova Scotia	Section 134 of the Securities Act
New Brunswick	Section 188.2 of the Securities Act

APPENDIX B LISTS OF DEFAULTING REPORTING ISSUERS

Certain securities regulatory authorities maintain lists that identify those reporting issuers that have been noted in default in the relevant jurisdiction. The lists identify the name of the reporting issuer, and the nature and description of the default. The lists, together with the harmonized categories of default and nomenclature used to identify each category, can be found on the following websites:

www.bcsc.bc.ca
www.albertasecurities.com
www.sfsc.gov.sk.ca
www.msc.gov.mb.ca
www.osc.gov.on.ca
www.lautorite.qc.ca
www.nbsc-cvmb.ca
www.gov.ns.ca/nssc

Certain securities regulatory authorities have also published policies or notices containing information relating to defaults by reporting issuers. These local policies or notices are:

Alberta:	Alberta Securities Commission Policy 51-601 – Reporting Issuers List
Saskatchewan:	Saskatchewan Policy Statement 51-601 – <i>Reporting Issuers in Default</i>
Manitoba:	Manitoba Securities Commission Local Policy 51-601 – <i>Reporting Issuers List</i>
Ontario:	Ontario Securities Commission Policy 51-601 – <i>Reporting Issuer Defaults</i>
Quebec:	<i>AMF Notice on Reporting Issuer Defaults</i>
New Brunswick:	New Brunswick Securities Commission Policy 51-601 – <i>Reporting Issuers List</i>
Nova Scotia	Nova Scotia Securities Commission Policy 51-601 – <i>Reporting Issuers List</i>

APPENDIX C SAMPLE FORM OF CONSENT

CONSENT

To: [Name of Issuer's Principal Regulator], as principal regulator,

And to: [Name(s) of other CSA regulator(s) in whose jurisdiction(s) the Issuer is a reporting issuer] (collectively with the principal regulator, the CSA regulators)

Re: Consent to issuance of management cease trade order

I, [name of individual providing the consent], hereby confirm as follows:

1. I am the [name of position with the Issuer, e.g., the chief executive officer or chief financial officer] of [name of Issuer] (the Issuer).
2. The Issuer is a [nature of entity, e.g., a corporation incorporated under the Canada Business Corporations Act] with a head office located in [province or territory].
3. The Issuer is a reporting issuer in [identify all jurisdictions in which the issuer is a reporting issuer]. The Issuer's principal regulator, as determined in accordance with part 3 of Policy Statement 11-203 respecting Process for exemptive relief applications in multiple jurisdictions (Policy Statement 11-203) is [name of principal regulator].
4. The Issuer [is] [is not] [delete as applicable] a "venture issuer" as defined in *Regulation 51-~~102~~103* respecting ~~Continuous~~*Ongoing Governance and Disclosure Obligations Requirements for Venture Issuers* (*Regulation 51-~~102~~103*). The Issuer has a financial year ending [state the issuer's year end, e.g., December 31].
5. On or about [identify the deadline for filing] (the filing deadline), the Issuer will be required to file [briefly describe the required filings, e.g.,
 - a. [annual report, as required by part 7 of Regulation 51-103;](#)
 - b. audited annual financial statements for the year ended December 31, 2007, as required by Part 4 of Regulation 51-102;
 - ~~b.c.~~ management's discussion and analysis (MD&A) relating to the audited annual financial statements, as required by Part 5 of Regulation 51-102; and
 - c. CEO and CFO certificates relating to the audited annual financial statements, as required by *Regulation 52-109 respecting Certification of Disclosure in Issuers' Annual and Interim Filings* (collectively, the required filings).
6. The Issuer has determined that it may not be able to make the required filings by the filing deadline. The Issuer wishes to apply to the CSA regulators for a management cease trade order (an MCTO) as an alternative to a general cease trade order in accordance with Policy Statement 12-203 respecting Cease Trade Orders for Continuous Disclosure Defaults (Policy Statement 12-203).
7. I am providing this consent in support of the Issuer's application for an MCTO in accordance with Part 4 of Policy Statement 12-203.

8. I hereby consent to the issuance of an MCTO against me by the Issuer's principal regulator under the applicable statutory authority listed in Appendix A to Policy Statement 12-203.

9. Specifically, I understand that the MCTO will prohibit me from trading in or acquiring securities of the Issuer, directly or indirectly, until two full business days following the receipt by the principal regulator of all filings the Issuer is required to make under the securities legislation of the principal regulator or until further Order of the principal regulator.

10. I hereby further consent to the issuance of any substantially similar MCTO that another CSA regulator may consider necessary to issue by reason of the default described above.

11. I hereby waive any requirement of a hearing, as may be provided for under the applicable statutory authority listed in Appendix A to Policy Statement 12-203, and any corresponding notice of hearing, in respect of the issuance of the MCTO.
