 2. **The Investment Test.** The issuer's consolidated investments in and advances to the business or the related businesses exceeds 20 per cent of the consolidated assets of the issuer as at the last day of the most recently completed financial year of the issuer ended before the date of the acquisition for which audited financial statements are included in the short form prospectus, excluding any investments in or advances to the business or the related businesses as at that date.

- (3) **Optional Significance Tests Subsequent to the Date of Acquisition** - If an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses is significant based on the significance tests in subsection (2), the issuer may re-calculate the significance at a more recent date as follows:

- (5) Despite subsection (3), the significance of an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses may be re-calculated only if, subsequent to the acquisition date, the business or related businesses remained substantially intact, were not significantly reorganized, and no significant assets and liabilities were transferred to other entities.
- (6) Despite subsection (2), the significance of an acquisition of a business, an acquisition of related businesses, a probable acquisition of a business or a probable acquisition of related businesses may be calculated using unaudited financial statements of the business or related business prepared in accordance with GAAP if the financial statements of the business or related businesses for the most recently completed financial year prior to the date of the acquisition have not been audited.
- (7) In determining whether an acquisition of related businesses or a probable acquisition of related businesses is a significant acquisition, the related businesses shall be considered on a combined basis.

 1. positive, and

2. lower by 20 per cent or more than the average consolidated income from continuing operations of the issuer for the three previous 12 month periods,

FORM 44-101F1

AIF

INSTRUCTIONS

- (1) *An AIF is intended to provide background information that is essential to a proper understanding of the nature of an issuer and its operations and prospects.*
- (2) *Focus the AIF disclosure on the issuer and external factors affecting the issuer specifically; do not focus, unless specifically required, on external factors that affect issuers generally.*
- (3) *Do not omit any of the disclosure prescribed by this Form. In determining the degree of detail required, apply a standard of materiality. Materiality is a matter of judgment in particular circumstances, and should generally be determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.*
- (4) *A requirement in this Form to discuss or disclose forward-looking information does not call for a forecast or projection as defined in the Handbook. An issuer that chooses to provide a forecast or projection is required to comply with National Policy Statement No. 48 Future-Oriented Financial Information, or any successor instrument.*
- (5) *An issuer that is a special purpose vehicle may have to modify the disclosure items in this Form to reflect the special purpose nature of its business.*
- (6) *Any information required in an AIF may be incorporated by reference in the AIF. Clearly identify in an AIF any document incorporated by reference. If an excerpt of a document is incorporated by reference, clearly identify the excerpt in the AIF by caption and paragraph of the document. Any material incorporated by reference in an AIF is required under subsection 3.3(1) of National Instrument 44-101 to be filed with the AIF unless it has been previously filed.*
- (7) *Date an AIF no earlier than the date of the auditor's report on the issuer's financial statements for the financial year covered by the AIF.*

- (8) *Unless otherwise specified in this Form, present the information in an AIF as at a date not later than the date of the AIF and not earlier than the last day of the issuer's most recently completed financial year, except for*
- (a) *an AIF filed by a successor issuer following a reorganization, in which case present the information as at a date not earlier than the latest financial year end of any of the participants in the reorganization that were reporting issuers at the time of the reorganization; and*
 - (b) *an AIF filed by an issuer of asset-backed securities that has not completed its first financial year, in which case present the information as at a date within 30 days before the date that the initial AIF is filed.*
- (9) *If a material change affecting the issuer occurs after the date as at which the disclosure in the AIF is required, and before filing, include this information in the AIF.*
- (10) *Terms used and not defined in this Form that are defined or interpreted in National Instrument 44-101 Short Form Prospectus Distributions shall bear that definition or interpretation. Other definitions are set out in National Instrument 14-101 Definitions.*
- (11) *All references to an issuer in Items 3 through 6 of this Form are to be read as applying to an issuer and its subsidiaries and investees, if the disclosure concerning the issuer's subsidiaries and investees is material.*

Item 1: Cover Page

- 1.1 Date** - Insert the date of the AIF on the cover page.
- 1.2 Review of Renewal AIF** - If the issuer has been notified that its renewal AIF is being reviewed, include the following statement in **bold type** on the cover page of the renewal AIF until notified that the review has been completed.

"This annual information form is currently under review by the Canadian securities regulatory authorities of one or more jurisdictions. Information contained herein is subject to change."

The statement required under Item 1.2 may be added to paper copies of the renewal AIF by way of a stamp, sticker or other method that will ensure that the statement may not be deleted or removed from the renewal AIF.

- 1.3 Revisions** - If revisions are made to an AIF after filing, identify the AIF as a "revised initial AIF" or a "revised renewal AIF", as the case may be, on the cover page.

Item 3:

General Development of the Business

- 3.1 Three Year History** - Describe the general development of the business of the issuer over its last three completed financial years. Include only major events or conditions that have influenced the general development of the issuer's business. 3.2 Significant Acquisitions and Significant Dispositions

- (1) Disclose
 - (a) any significant acquisition completed by the issuer during its most recently completed financial year for which financial statement disclosure would be required under Part 4 or 5 of National Instrument 44-101 if the AIF were a short form prospectus; and

financial year.

- (2) Under paragraph (1) include particulars of

 - (g) whether the transaction is with an insider, associate or affiliate of the issuer and, if so, disclose the identity of the other parties and the relationship of the other parties to the issuer.

3.3 Trends - Discuss any trend, commitment, event or uncertainty that is both presently known to management and reasonably expected to have a material effect on the issuer's business, financial condition or results of operations, providing forward-looking information based on the issuer's expectations as of the date of the AIF.

INSTRUCTION

Issuers are encouraged, but not required, to supply other forward-looking information. Optional forward-looking disclosure involves anticipating a future trend or event or anticipating a less predictable effect of a known event, trend or uncertainty. This other forward-looking information is to be distinguished from presently known information that is reasonably expected to have a material effect on future operating results, such as known future increases in costs of labour or materials, which is information required to be disclosed.

- (a) was the subject of a cease trade or similar order, or an order that denied the other issuer access to any exemptions under Canadian securities legislation, for a period of more than 30 consecutive days, state the fact and describe the basis on which the order was made and whether the order is still in effect; or

FORM 44-101F2

MD&A

INSTRUCTIONS

- (1) *MD&A is supplemental analysis and explanation that accompanies, but does not form part of, an issuer's financial statements. MD&A provides management with the opportunity to discuss an issuer's current financial results, position and future prospects. MD&A is intended to give a reader the ability to look at the issuer through the eyes of management by providing both a historical and prospective analysis of the business of the issuer. MD&A requires that management discuss the dynamics of the business and analyze the financial statements. Coupled with the financial statements, this information should enable readers to better assess the issuer's performance, position and future prospects.*
- (2) *Focus the MD&A on material information about the financial condition of the issuer, as well as its operations, with particular emphasis on liquidity, capital resources and known material trends, commitments, events, risks or uncertainties that are reasonably expected to have a material effect on the issuer's business, financial condition or results of operations.*
- (3) *In this Form, "capital resources" means indebtedness, share capital and any other financial arrangement, whether or not it is reflected on the balance sheet of an issuer, that can reasonably be considered to provide financial resources to the issuer.*
- (4) *Issuers are not required to disclose information described in this Form if the information is not material. Materiality is a matter of judgement in particular circumstances and should generally be determined in relation to an item's significance to investors, analysts and other users of the information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. This concept of materiality is consistent with the financial reporting notion of materiality in the Handbook.*
- (5) *If information required under this Form is disclosed in a note to an issuer's financial statements, the issuer may comply with the disclosure requirement by providing a cross-reference to the note in which the information appears.*
- (6) *Focus the MD&A on the primary financial statements, even if the primary financial statements*

have been prepared using foreign GAAP.

- (7) *The nature of the disclosure required under this Form is intentionally general. This Form contains a minimum of specific instructions in order to allow, as well as encourage, issuers to discuss their businesses in the most appropriate manner and to tailor their comments to their individual circumstances. Issuers should avoid boilerplate.*
- (8) *Staff of the CSA from time to time publishes MD&A guides and reports on MD&A and financial statement reviews. Issuers are encouraged to refer to this material.*

Item 1: General

- (1) Provide an analysis of the issuer's financial condition, cash flows and results of operations in the most recently completed financial year, including a comparison against the previously completed financial year. Provide all information necessary to understand the analysis and comparison. Include
 - (a) an analysis and comparison over a period longer than two financial years if necessary to describe a trend;
 - (b) an analysis and comparison on the basis of each reportable operating segment or other part of the business, as well as on the issuer as a whole, if necessary to understand the analysis and comparison;
 - (c) factors internal to the issuer as well as external economic and industry factors affecting the issuer;
 - (d) an explanation of why changes have or have not occurred in the financial condition and results of operations of the issuer;
 - (e) the effect of discontinued operations; and
 - (f) major changes in the direction of the business.

INSTRUCTION

- (1) *For purposes of paragraph (b), in making the determination whether an analysis and comparison on the basis of a reportable operating segment or other part of the business is*

required, give consideration to whether any part of the business has a disproportionate effect on revenues, profitability or cash needs; whether there are any legal or other restrictions on the free flow of funds from one part of the issuer's business to another; and whether known trends, demands, commitments, events or uncertainties within a part of the business are reasonably likely to have a material effect on the business as a whole.

- (2) *For purposes of paragraph (c), in providing an explanation of causes affecting more than one item, an overall analysis is sufficient.*
- (3) *Issuers need only include information that is reasonably available to the issuer and that does not clearly appear in the issuer's financial statements. Numerical data included in, or readily calculable from, the financial statements need not be repeated in the analysis and comparison. For example, if it is clear from the comparative financial statements what the amount of increase or decrease in revenues or the respective percentage change would be from the prior year, it is not necessary to include this information in the discussion since it is readily calculable. Nonetheless, showing these increases and decreases immediately before the discussion is often useful to readers.*

- (2) Describe and quantify any events or items that have had a material impact on the issuer's financial condition, cash flows or results of operations during the issuer's fourth quarter of its most recently completed financial year, including extraordinary or infrequently occurring items, year-end and other adjustments and disposals of business segments.

INSTRUCTION

Infrequently occurring items are those which do not have all of the characteristics of extraordinary items, as that term is defined by the Handbook, but result from transactions or events that are not expected to occur frequently over several years or are not typical of the issuer's normal business activities.

- (3) Disclose information on risks and uncertainties facing the issuer necessary to understand the issuer's financial condition, changes in financial condition and results of operations.
- (4) Provide an analysis of the risks, events and uncertainties that could cause reported financial information to not necessarily be indicative of future operating results or of future financial position. Include both qualitative and quantitative descriptions of factors that
 - (a) could have an effect on future operations or financial position and have not had an effect in the past; and

- (b) have had an effect on reported operations or financial position, and are not expected to have an effect in the future.
- (5) Describe any changes in the accounting policies of the issuer adopted subsequent to its most recent financial year end or any changes in its accounting policies that are expected to be adopted by the issuer, including those resulting from a change in an accounting standard, or the issuance of a new accounting standard, that does not require adoption until some future date. Disclose the estimated effect on the financial statements of the implementation of any changes in the accounting policies described.
- (6) If not already disclosed in the issuer's financial statements, provide
- (a) a discussion of the nature and extent of the issuer's use of financial instruments and the business purposes that they serve;
 - (b) an analysis of the risks associated with the issuer's financial instruments;
 - (c) an analysis of management's policies for controlling the risks associated with the issuer's financial instruments, including an analysis of, if applicable, the issuer's policies for the hedging of risk exposures, the avoidance of undue concentrations of risk and any requirements for collateral to mitigate credit risks, and, if the issuer has no policies for controlling the risks associated with the issuer's financial instruments, a statement indicating that the issuer does not have any such policies;
 - (d) a discussion of the relationships between financial instruments and the components of individual financial instruments that may affect the amount, timing or certainty of cash flows;
 - (e) disclosure of significant accounting policies for financial instruments, including a description of how each class of financial instrument is reported in the financial statements, the policies for recognition and measurement of financial instruments, and the financial statement classification of gains and losses; and
 - (f) significant assumptions made in determining the fair value of financial instruments, the total amount of the change in fair value of financial instruments recognized in income for the period, and the total amount of deferred or unrecognized gains and losses on financial instruments.

INSTRUCTION

- (1) *The discussion required under paragraph (a) should be designed to enhance a reader's understanding of the significance of recognized and unrecognized financial instruments on the*
-

issuer's financial position, results and cash flows. The information should also be designed to assist a reader in assessing the amounts, timing, and certainty of future cash flows associated with those instruments.

- (2) *For purposes of paragraph (c), if the issuer is exposed to significant price, credit or liquidity risks, consideration should be given to providing a sensitivity analysis or tabular information that assists readers in assessing the degree of exposure. For example, an analysis of the effect of a hypothetical change in the prevailing level of interest or currency rates on the fair value of financial instruments and future earnings and cash flows may be useful in describing the issuer's exposure to price risk.*
- (3) *A discussion of the existence and terms of master netting agreements and the relationship between liability and equity components of convertible debt instruments would be appropriate for purposes of paragraph (d).*
- (7) If a decision to proceed with a transaction has been made by an issuer's board of directors, or by senior management with the expectation of concurrence from the board of directors, and the transaction involves an asset acquisition or disposition or an acquisition or disposition of a business, whether structured as an asset or share transaction, discuss the transaction and its anticipated effect as part of MD&A. Disclosure is not required if the issuer has made a confidential filing under the continuous disclosure provisions of securities legislation.

Item 2: Quarterly Information

- (1) Subject to paragraphs (2) and (3), for each of the eight most recently completed quarters ending at the end of the most recently completed financial year, provide the information required in paragraphs 1, 2 and 3 of Item 5.1 of the AIF.
- (2) For an issuer that has not been a reporting issuer for the eight most recently completed quarters ending at the end of the most recently completed financial year, provide the information required in paragraphs 1, 2 and 3 of Item 5.1 of the AIF for the period that the issuer was not a reporting issuer only if the issuer has prepared quarterly financial statements for that period.
- (3) If the issuer is only required to file six month interim financial statements, the information required under paragraph (1) may instead be provided for each of the four most recently completed six month periods ended at the end of the most recently completed financial year.

Item 3: Liquidity and Capital Resources

- (1) With respect to the issuer's liquidity,
 - (a) discuss the ability of the issuer to generate adequate amounts of cash and cash equivalents, in the short term and the long term, when needed and to maintain capacity to provide for planned growth;
 - (b) identify any known trends or expected fluctuations in the issuer's liquidity, taking into account known demands, commitments, events or uncertainties; if a deficiency is identified, indicate the course of action that has been taken or is proposed to be taken to remedy the deficiency;
 - (c) describe those balance sheet conditions or income or cash flow items that the issuer believes may be indicators of its liquidity;
 - (d) describe generally the requirements relating to working capital;
 - (e) disclose the nature and extent of legal or practical restrictions on the ability of subsidiaries to transfer funds to the issuer and the effect that these restrictions have had or are expected to have on the ability of the issuer to meet its obligations; and

INSTRUCTION

Examples of such events include known future changes in costs of labour or materials or price changes or inventory adjustments.

FORM 44-101F3

SHORT FORM PROSPECTUS

INSTRUCTIONS

- (1) *The objective of the short form prospectus is to provide information concerning the issuer that an investor needs in order to make an informed investment decision. This Form sets out specific disclosure requirements that are in addition to the general requirement under securities legislation to provide full, true and plain disclosure of all material facts relating to the securities to be distributed. Certain rules of specific application impose prospectus disclosure obligations in addition to those described in this Form.*
- (2) *Terms used and not defined in this Form that are defined or interpreted in National Instrument 44-101 Short Form Prospectus Distributions shall bear that definition or interpretation. Other definitions are set out in National Instrument 14-101 Definitions.*
- (3) *In determining the degree of detail required a standard of materiality should be applied. Materiality is a matter of judgement in the particular circumstance, and should generally be determined in relation to an item's significance to investors, analysts and other users of information. An item of information, or an aggregate of items, is considered material if it is probable that its omission or misstatement would influence or change an investment decision with respect to the issuer's securities. In determining whether information is material, take into account both quantitative and qualitative factors. The potential significance of items should be considered individually rather than on a net basis, if the items have an offsetting effect. This concept of materiality is consistent with the financial reporting notion of materiality contained in the Handbook.*
- (4) *Unless an item specifically requires disclosure only in the preliminary short form prospectus, the disclosure requirements set out in this Form apply to both the preliminary short form prospectus and the short form prospectus. Details concerning the price and other matters dependent upon or relating to price, such as the number of securities being distributed, may be left out of the preliminary short form prospectus, along with specifics concerning the plan of distribution, to the extent that these matters have not been decided.*
- (5) *Any information required in a short form prospectus may be incorporated by reference in the short form prospectus, other than confidential material change reports. Clearly identify in a*

short form prospectus any document incorporated by reference. If an excerpt of a document is incorporated by reference, clearly identify the excerpt in the short form prospectus by caption and paragraph of the document. Any material incorporated by reference in a short form prospectus is required under sections 10.2 and 10.3 of National Instrument 44-101 to be filed with the short form prospectus unless it has been previously filed.

- (6) *The disclosure must be understandable to readers and presented in any easy to read format. The presentation of information should comply with the plain language principles listed in section 9.2 of Companion Policy 44-101CP Short Form Prospectus Distributions. If technical terms are required, clear and concise explanations should be included.*
- (7) *No reference need be made to inapplicable items and, unless otherwise required in this Form, negative answers to items may be omitted.*
- (8) *Where the term "issuer" is used, it may be necessary, in order to meet the requirement for full, true and plain disclosure of all material facts, to also include disclosure with respect to the issuer's subsidiaries and investees. If it is more likely than not that a person or company will become a subsidiary or investee, it may be necessary to also include disclosure with respect to the person or company.*
- (9) *An issuer that is a special purpose vehicle may have to modify the disclosure items to reflect the special purpose nature of its business.*
- (10) *If disclosure is required as of a specific date and there has been a material change or change that is otherwise significant in the required information subsequent to that date, present the information as of the date of the change or a date subsequent to the change instead.*
- (11) *If the term "class" is used in any item to describe securities, the term includes a series of a class.*

Item 1: Cover Page Disclosure

1.1 Required Language - State in *italics* at the top of the cover page the following:

Issuers shall complete the bracketed information by

- (8) If the underwriter has been granted a compensation option, state whether the short form prospectus qualifies the grant of all or part of the compensation option and provide a cross-reference to the applicable section in the short form prospectus where further information about the compensation option is provided.

- (5) If there is no underwriter involved in the distribution, provide a statement in **bold type** to the effect that no underwriter has been involved in the preparation of the short form prospectus or performed any review of the contents of the short form prospectus.

1.9 International Issuers - If the issuer, a selling security holder, a credit supporter of the securities being distributed under the short form prospectus or a promoter of the issuer is incorporated, continued or otherwise organized under the laws of a foreign jurisdiction or resides outside of Canada, comply with National Instrument 41-101 Prospectus Disclosure Requirements by stating the following on the cover page or under a separate heading elsewhere in the short form prospectus, with the bracketed information completed:

Item 3: Summary Description of Business

Item 4: Consolidated Capitalization and Financial Information Released

If the short form prospectus is used for a special warrant or similar transaction, state the amount that has been received by the issuer of the special warrants or similar securities on the sale of the special warrants or similar securities.
- 5.2 Principal Purposes** - Describe in reasonable detail and, if appropriate using tabular form, each of the principal purposes, with approximate amounts, for which the net proceeds will be used by the issuer.

Item 6: Plan of Distribution

- 6.1 Disclosure of Market Out** - If securities are distributed by an underwriter that has agreed to purchase all of the securities at a specified price and the underwriter's obligations are subject to conditions, include a statement in substantially the following form, with the bracketed information completed and with modifications necessary to reflect the terms of the distribution:

"Under an agreement dated [insert date of agreement] between [insert name of issuer or selling security holder] and [insert name(s) of underwriter(s)], as underwriter[s], [insert name of issuer or selling security holder] has agreed to sell and the underwriter[s] [has/have] agreed to purchase on [insert closing date] the securities at a price of [insert offering price], payable in cash to [insert name of issuer or selling security holder] against delivery. The obligations of the underwriter[s] under the agreement may be terminated at [its/their] discretion on the basis of [its/their] assessment of the state of the financial markets and may also be terminated upon the occurrence of certain stated events. - 6.5 Minimum Distribution** - If a minimum amount of funds is required under the issue and the securities are to be distributed on a best efforts basis, state the minimum amount required to be raised and the maximum that could be raised. Also indicate that the distribution will not continue for a period of more than 90 days after the date of the receipt for the short form prospectus if subscriptions representing the minimum amount of funds are not obtained within that period, unless each of the persons and companies who subscribed within that period has consented to the continuation.
- 6.6 Reduced Price Distributions** - If an underwriter wishes to be able to decrease the price at which securities are distributed for cash from the initial public offering price disclosed in the short form prospectus and thereafter change, from time to time, the price at which securities are distributed under

the short form prospectus in accordance with the procedures permitted by National Instrument 44-101, disclose that, after the underwriter has made a reasonable effort to sell all of the securities at the initial public offering price disclosed in the short form prospectus, the offering price may be decreased, and further changed from time to time, to an amount not greater than the initial offering price disclosed in the short form prospectus and that the compensation realized by the underwriter will be decreased by the amount that the aggregate price paid by purchasers for the securities is less than the gross proceeds paid by the underwriter to the issuer or selling security holder.

6.7 Listing Application - If application has been made to list or quote the securities being distributed, include a statement in substantially the following form with the bracketed information completed:

"The issuer has applied to [list/quote] the securities distributed under this short form prospectus on [name of exchange or other market]. [Listing/Quotation] will be subject to the issuer fulfilling all the listing requirements of [name of exchange or other market]."

[Listing/Quotation] is subject to the [name of the issuer] fulfilling all of the requirements of the [name of exchange or market] on or before [date], [including distribution of these securities to a minimum number of public security holders.]"

Item 7: Earnings Coverage Ratios

7.1 Earnings Coverage Ratios

- (1) If the securities being distributed are debt securities having a term to maturity in excess of one year or are preferred shares, disclose the following earnings coverage ratios adjusted in accordance with paragraph (2):
 1. The earnings coverage ratio based on the 12 month period ended on the last day of the most recently completed period for which audited annual financial statements of the issuer have been, or are required to have been, filed with any Canadian securities regulatory authority.

2. The earnings coverage ratio based on the 12 month period ended on the last day of the most recently completed period for which interim financial statements of the issuer have been, or are required to have been, filed with any Canadian securities regulatory authority, if the period is subsequent to the last day of the most recently completed period for which audited annual financial statements of the issuer have been, or are required to have been, filed with any Canadian securities regulatory authority.
- (2) Adjust the ratios referred to in paragraph (1) to reflect
 - (a) the issuance of the securities being distributed under the short form prospectus, based on the price at which these securities are expected to be distributed;
 - (b) in the case of a distribution of preferred shares,
 - (i) all preferred shares issued since the date of the annual or interim financial statements, and
 - (ii) all preferred shares repurchased, redeemed, or otherwise retired since the date of the annual or interim financial statements and all preferred shares to be repurchased, redeemed, or otherwise retired from the proceeds to be realized from the sale of securities under the short form prospectus;
 - (c) the issuance of all long-term financial liabilities, as defined in the Handbook;
 - (d) the repayment, redemption or other retirement of all long-term financial liabilities, as defined in the Handbook, since the date of the annual or interim financial statements and all long-term financial liabilities to be repaid or redeemed from the proceeds to be realized from the sale of securities distributed under the short form prospectus; and
 - (e) the servicing costs that were incurred, or are expected to be incurred, in relation to the adjustments.
 - (3) If the issuer is distributing, or has outstanding, debt securities that are accounted for, in whole or in part, as equity under Canadian GAAP, disclose in notes to the ratios required under paragraph (1)
 - (a) that the ratios have been calculated excluding the carrying charges for those securities that have been reflected in equity in the calculation of the issuer's interest and dividend obligations;
-

- (b) that if those securities had been accounted for in their entirety as debt for the purpose of calculating the ratios required under paragraph (1), the entire amount of the annual carrying charges for those securities would have been reflected in the calculation of the issuer's interest and dividend obligations; and
- (c) the earnings coverage ratios for the periods referred to in paragraph (1), calculated as though those securities had been accounted for as debt.

INSTRUCTIONS

- (1) *Cash flow coverage may be disclosed but only as a supplement to earnings coverage and only if the method of calculation is fully disclosed. Earnings coverage is calculated by dividing an entity's earnings (the numerator) by its interest and dividend obligations (the denominator).*
- (2) *For the earnings coverage calculation*
 - (a) *the numerator should be calculated using consolidated net income before interest and income taxes;*
 - (b) *imputed interest income from the proceeds of a distribution should not be added to the numerator;*
 - (c) *an issuer may also present, as supplementary disclosure, a coverage calculation based on earnings before discontinued operations and extraordinary items;*
 - (d) *for distributions of debt securities, the appropriate denominator is interest expense determined in accordance with generally accepted accounting principles, after giving effect to the new debt issue and any retirement of obligations plus the amount of interest that has been capitalized during the period;*
 - (e) *for distributions of preferred shares*
 - (i) *the appropriate denominator is dividends declared during the period, together with undeclared dividends on cumulative preferred shares, after giving effect to the new preferred share issue, plus the issuer's annual interest requirements, including the amount of interest that has been capitalized during the period, less any retirement obligations,*
 - (ii) *the coverage calculation should gross up dividends to a before-tax equivalent (the "prior deduction method") using the issuer's effective income tax rate (the*

rate that is reconciled to the basic income tax rate in the issuer's financial statement notes), and

- (iii) the combined interest and dividend method (the "combined method"), and not the prior deduction method, should be used to calculate earnings coverage; and*
 - (f) for distributions of both debt securities and preferred shares, the appropriate denominator is the same as for a preferred share issue, except that the denominator should also reflect the effect of the debt being offered pursuant to the short form prospectus.*
- (3) The prior deduction method referred to in Instruction 2(e)(ii) reflects the net coverage for preferred dividends after meeting interest obligations and results in a higher ratio than the combined method. As investors may falsely interpret the higher ratio as indicating less risk, without appreciating the fact that debtholders rank before preferred shareholders, the combined method should be used, although disclosure of a supplementary coverage ratio calculated using the prior deduction method is permitted.*
- (4) The denominator represents a pro forma calculation of the aggregate of an issuer's interest obligations on all long-term debt and dividend obligations (including both dividends declared and undeclared dividends on cumulative preferred shares) with respect to all outstanding preferred shares, as adjusted to reflect*
- (a) the issuance of all long-term debt and, in addition in the case of an issuance of preferred shares, all preferred shares issued, since the date of the annual or interim financial statements;*
 - (b) the issuance of the securities that are to be distributed under the short form prospectus, based on a reasonable estimate of the price at which these securities will be distributed;*
 - (c) the repayment or redemption of all long-term debt since the date of the annual or interim financial statements, all long-term debt to be repaid or redeemed from the proceeds to be realized from the sale of securities under the short form prospectus and, in addition, in the case of an issuance of preferred shares, all preferred shares repaid or redeemed since the date of the annual or interim financial statements and all preferred shares to be repaid or redeemed from the proceeds to be realized from the sale of securities under the short form prospectus; and*
 - (d) the servicing costs that were incurred, or will be incurred, in relation to the above adjustments.*
-

- (5) *If meaningful in the circumstances, the earnings coverage ratio must be calculated and disclosed based on a pro forma income statement that is included in a short form prospectus.*
- (6) *For debt securities, disclosure of earnings coverage shall include language similar to the following:*
- "The Company's interest requirements, after giving effect to the issue of [the debt securities to be distributed under the short form prospectus], amounted to \$• for the 12 months ended •. The Company's earnings before interest and income tax for the 12 months then ended was \$•, which is • times the Company's interest requirements for this period."*
- (7) *For preferred share issues, disclosure of earnings coverage shall include language similar to the following:*
- "The Company's dividend requirements on all of its preferred shares, after giving effect to the issue of [the preferred shares to be distributed under the short form prospectus], and adjusted to a before-tax equivalent using an effective income tax rate of •%, amounted to \$• for the 12 months ended •. The Company's interest requirements for the 12 months then ended amounted to \$•. The Company's earnings before interest and income tax for the 12 months ended • was \$•, which is • times the Company's aggregate dividend and interest requirements for this period."*
- (8) *If the issuer is a wholly-owned subsidiary of a credit supporter, has no operations or only minimal operations, that are independent of the credit supporter and is an entity that functions essentially as a special purpose vehicle, disclose the earnings coverage of the credit supporter. If this disclosure is included, the earnings coverage of the issuer may not be material and, if not material, may be omitted. If the issuer is a wholly-owned subsidiary of the credit supporter but has more than minimal operations that are independent of the credit supporter, or if the issuer is not a wholly-owned subsidiary of the credit supporter, the earnings coverage of both the credit supporter and the issuer shall be disclosed.*
- (9) *If the earnings coverage is less than one-to-one, disclose this fact in bold-face on the cover page of the short form prospectus. While the actual coverage ratio should not be disclosed in these circumstances, the dollar amount of the coverage deficiency (i.e., the dollar amount of earnings required to attain a ratio of one-to-one) should be disclosed in the body of the short form prospectus.*
- (10) *Other earnings coverage calculations may be included as supplementary disclosure to the required earnings coverage calculations outlined above as long as their derivation is disclosed and they are not given greater prominence than the required earnings coverage calculations.*
