Using the following table, disclose the available funds after the rights offering. If you plan to combine additional sources of funding with the offering proceeds to achieve your principal capital-raising purpose, provide details about each additional source of funding.

If there is no minimum offering or stand-by commitment, or if the minimum offering or stand-by commitment represents less than 75% of the rights offering, include threshold disclosure if only 15%, 50% or 75% of the entire offering is taken up.

Disclose the amount of working capital deficiency, if any, of the issuer as of the most recent month end. If the available funds will not eliminate the working capital deficiency, state how you intend to eliminate or manage the deficiency. If there has been a significant change in the working capital since the most recently audited annual financial statements, explain those changes.

Guidance

We would consider a significant change to include a change in the working capital that results in material uncertainty regarding the issuer’s going concern assumption, or a change in the working capital balance from positive to deficiency or vice versa.

State the following in bold:

“How will we use the available funds?”.

Using the following table, provide a detailed breakdown of how you will use the available funds. Describe in reasonable detail each of the principal purposes, with approximate amounts.

Description of intended use of available funds listed in order of priority.	Assuming minimum offering or stand-by commitment only	Assuming 15% of offering	Assuming 50% of offering	Assuming 75% of offering	Assuming 100% of offering

If there is no minimum offering or stand-by commitment, or if the minimum offering or stand-by commitment represents less than 75% of the rights offering, include threshold disclosure if only 15%, 50% or 75% of the entire offering is taken up.

Instructions:

1. *If the issuer has significant short-term liquidity requirements, discuss, for each threshold amount (i.e., 15%, 50% and 75%), the impact, if any, of raising that amount on its liquidity, operations, capital resources and solvency. Short-term liquidity requirements include non-discretionary expenditures for general corporate purposes and overhead expenses, significant short-term capital or contractual commitments, and expenditures required to achieve stated business objectives.*

When discussing the impact of raising each threshold amount on your liquidity, operations, capital resources and solvency, include all of the following in the discussion:

- *which expenditures will take priority at each threshold, and what effect this allocation would have on your operations and business objectives and milestones;*
- *the risks of defaulting on payments as they become due, and what effect the defaults would have on your operations;*
- *an analysis of your ability to generate sufficient amounts of cash and cash equivalents from other sources, the circumstances that could affect those sources and management's assumptions in conducting this analysis.*

State the minimum amount required to meet the short-term liquidity requirements. In the event that the available funds could be less than the amount required to meet the short-term liquidity requirements, describe how management plans to discharge its liabilities as they become due. Include the assumptions management used in its plans.

If the available funds could be insufficient to cover the issuer's short-term liquidity requirements and overhead expenses for the next 12 months, include management's assessment of the issuer's ability to continue as a going concern. If there are material uncertainties that cast significant doubt upon the issuer's ability to continue as a going concern, state this fact in bold.

2. *If you will use more than 10% of available funds to reduce or retire indebtedness and the indebtedness was incurred within the two preceding years, describe the principal purposes for which the indebtedness was used. If the creditor is an insider, associate or affiliate of the issuer, identify the creditor and the nature of the relationship to the issuer and disclose the outstanding amount owed.*

3. *If you will use more than 10% of available funds to acquire assets, describe the assets. If known, disclose the particulars of the purchase price being paid for or being allocated to the assets or categories of assets, including intangible assets. If the vendor of the asset is an insider, associate or affiliate of the issuer, identify the vendor and nature of the relationship to the issuer, and disclose the method used to determine the purchase price.*

4. *If any of the available funds will be paid to an insider, associate or affiliate of the issuer, disclose in a note to the use of available funds table in item 19 the name of the insider, associate or affiliate, the relationship to the issuer, and the amount to be paid.*

5. *If you will use more than 10% of available funds for research and development of products or services,*

a. describe the timing and stage of research and development that management anticipates will be reached using the funds,

b. describe the major components of the proposed programs you will use the available funds for, including an estimate of anticipated costs,

c. state if you are conducting your own research and development, are subcontracting out the research and development or are using a combination of those methods, and

d. describe the additional steps required to reach commercial production and an estimate of costs and timing.

6. *If you may reallocate available funds, include the following statement:*
