Guidance:

(1) *Securities statutes in local jurisdictions may provide definitions or meanings for "associate", "control person", "distribution", "director", "exchange contract", "forward-looking information", "insider", "investment fund", "issuer", "material change", "material fact", "promoter", "reporting issuer", "security", and "special relationship".*

(2) *Refer to Regulation 14-101 respecting Definitions for the definitions of "1933 Act", "1934 Act", "Canadian GAAP", "Canadian GAAS", "handbook", "IFRS", "local jurisdiction", "regulator", "securities legislation", and "securities regulatory authority".*

(3) *Securities legislation defines the term "person" and in Alberta, Saskatchewan, Manitoba and Nova Scotia also defines the term "company". Where the phrase "person" is used in this regulation, refer to Regulation 14-101 respecting Definitions for the meaning of that phrase in British Columbia and New Brunswick.*

(4) *This regulation uses accounting terms that are defined, or referred to, in Canadian GAAP applicable to publicly accountable enterprises. In certain cases, some of those terms are defined differently in securities legislation. In deciding which meaning applies, venture issuers should consider that Regulation 14-101 respecting Definitions provides that a term used in this regulation that is defined in the securities statute of a local jurisdiction has the meaning given to it in the statute unless: (a) the definition in that statute is restricted to a specific portion of the statute that does not govern continuous disclosure; or (b) the context otherwise requires.*

For example, the term "associate" is defined in both local securities statutes and Canadian GAAP applicable to publicly accountable enterprises. We are of the view that the references to the term "associate" in the regulation and its forms (e.g., item 12(2)(e) of Form

51-103F4 Information Circular) should be given the meaning of the term under local securities statutes since the context does not indicate that the accounting meaning of the term should be used.

If an issuer is permitted under Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards to file financial statements or interim financial reports prepared in accordance with acceptable accounting principles other than Canadian GAAP then the issuer should interpret any reference in this regulation to a term or provision defined, or referred to, in Canadian GAAP applicable to publicly accountable enterprises as a reference to the corresponding term or provision in the other acceptable accounting principles.

(5) Refer to Canadian GAAP applicable to publicly accountable enterprises for the definition of “interim financial report”.

(6) When this regulation requires disclosure of a “material” relationship, transaction, agreement, plan or other information, in determining whether or not a particular matter is material, consider whether disclosing, omitting or misstating the relationship, transaction, agreement, plan or other information would likely influence or change a reasonable investor’s decision as to whether or not to buy, sell or hold a security in the capital of the venture issuer.

(2) For purpose of subsection (3), “core document definition” means the definition of “core document” set out in:

- (a) in Alberta, subsection 211.01(b) of the Securities Act (Alberta);
- (b) in British Columbia, section 140.1 of the Securities Act (British Columbia);
- (c) in Manitoba, subsection 174 of the Securities Act (Manitoba);
- (d) in New Brunswick, section 161.1 of the Securities Act (New Brunswick);
- (e) in Newfoundland and Labrador, section 138.1(b) of the *Securities Act* (Newfoundland and Labrador);
- (f) in the Northwest Territories, section 122 of the Securities Act (Northwest Territories);
- (g) in Nova Scotia, section 146A(b) of the Securities Act (Nova Scotia);
- (h) in Nunavut, section 122 of the Securities Act (Nunavut);
- (i) in Ontario, section 138.1 of the Securities Act (Ontario);
- (j) in Prince Edward Island, section 122 of the Securities Act (Prince Edward Island);
- (k) in Quebec, section 225.3 of the Securities Act (Quebec);
- (l) in Saskatchewan, section 136.01(b) of the Securities Act (Saskatchewan);
- (m) in the Yukon, section 122 of the Securities Act (Yukon).

(3) Each of the following documents is prescribed as a core document for the purpose of the core document definition:

- (a) an annual report;
- (b) a mid-year report;
- (c) a report of material change, material related entity transaction or major acquisition, except for financial statements associated with a major acquisition.

2. Interpretation

In this regulation

(a) an issuer is an “affiliated entity” of another issuer if one of them is the subsidiary entity of the other or if each of them is controlled by the same person,

(b) an issuer is considered “controlled” by another person if that person has or shares the power to govern the financial and operating policies of the venture issuer so as to obtain benefits from its activities,

(c) an issuer is a “subsidiary entity” of another issuer if it is controlled by that other issuer.

(c) the end of the venture issuer's applicable mid-year period for the purpose of determining whether it is required to file a mid-year report under this regulation;

(d) the end of the most recently completed financial year for the purpose of determining whether it is required to file an information circular

(i) under this regulation, or

(ii) under Regulation 51-102 respecting Continuous Disclosure Obligations;

Guidance:

(1) *The SEC website provides a list that identifies each exchange registered as a "national securities exchange". See <http://www.sec.gov/divisions/marketreg/mrexchanges.shtml>*

(2) *In determining whether or not a venture issuer's securities are listed or quoted on a "marketplace" outside of Canada or the United States, consider whether the securities are "listed or quoted", as opposed to merely admitted for trading. Refer to the definition of "marketplace".*

(3) *Subsection 3(4) authorizes securities regulatory authorities to designate a market as a designated venture market. Refer to CSA Notice ■ for a current list of such markets.*

PART 2 DISCLOSURE OBLIGATIONS

Guidance:

(1) *Generally, securities legislation in each of the jurisdictions prohibits a venture issuer from making a statement that is a misrepresentation or otherwise, in a material respect and at the time and in light of the circumstances, is false or misleading or fails to state a fact that is either required to be stated or that is necessary to make another statement not misleading. These*

prohibitions can apply in a number of circumstances and may differ somewhat among jurisdictions. Some examples include if the statement

(a) could reasonably be expected to have a significant effect on the market price or value of the securities,

(b) is made to securities regulatory authorities or is in a document provided to securities regulatory authorities, or

(c) is made in connection with activities or oral or written communications, by or on behalf of an issuer that promote or reasonably could be expected to promote the purchase or sale of securities of the issuer.

Breaching these provisions can lead to a variety of sanctions including, in some circumstances, fines and imprisonment.

(2) Directors and officers of a venture issuer can also be held liable for false or misleading statements if they authorize, acquiesce to or permit the statements. Directors and officers will therefore want to exercise diligence with respect to the accuracy and completeness of the disclosure made or authorized by the venture issuer.

PART 3 GOVERNANCE RESPONSIBILITIES

(f) the process the board would use to review and assess the disclosure and reporting it has received.

5. Audit Committees

(1) The board of directors of a venture issuer must appoint an audit committee composed of at least three directors a majority of whom are not executive officers or employees of the venture issuer or an affiliated entity of the venture issuer.

(2) The audit committee of a venture issuer must do each of the following:

(a) oversee the selection and appointment of an auditor;

(b) oversee the performance of services provided to the venture issuer by the auditor and the auditor's relationship with the venture issuer's management, including by doing each of the following

(i) monitor the services provided by the auditor which are beyond the scope of the venture issuer's audit and the amount of fees charged for those services relative to the fees charged for the audit services,

(ii) meet annually with the auditors, independent of the executive officers of the venture issuer, before the board of directors review and approval of the annual financial statements, to determine whether there have been any disagreements or contentious issues between the auditor and the venture issuer's executive officers relating to the venture issuer's disclosure and whether those issues have been resolved to the satisfaction of the auditor,

(iii) meet with the auditor at such other times as reasonably necessary,

(iv) review and approve the hiring policies regarding employees, and consultants, previously employed by the venture issuer's auditor;

(c) before filing or disclosure, review the annual financial statements, the auditor's report relating to those annual financial statements and the associated MD&A contained in the annual report, and make a recommendation to the board of directors regarding whether to approve that disclosure;

(d) before filing or disclosure, review the mid-year interim financial report and associated MD&A contained in the mid-year report and either, if authorized to do so, approve that disclosure or make a recommendation to the board of directors regarding whether to approve that disclosure;

(e) before filing or disclosure, review each interim financial report prepared for an optional interim period and either, if authorized to do so, approve that disclosure or make a recommendation to the board of directors regarding whether to approve that disclosure;

(f) before filing or disclosure, review each news release if it contains financial information derived from annual financial statements, a mid-year interim financial report or an interim financial report for an optional interim period;

(g) establish procedures reasonably designed to ensure each of the following

(i) they receive, have an opportunity to consider and address and keep a record of each complaint or concern regarding questionable accounting, internal accounting controls and auditing matters,

(ii) complaints and concerns can be submitted to a non-management member of the audit committee or another individual designated by the audit committee who is not a member of management or a family member of management,

(iii) that employees and consultants of the venture issuer can submit such complaints or concerns on a confidential and no-names basis.

Guidance:

Subsection 7(3) requires that the board of directors approve the annual report. Subsection 9(3) requires that either the board of directors or the audit committee approve the mid-year report and subsection 13(2)(b) requires that either the board of directors or the audit committee approve an interim financial report prepared for an optional interim period.

6. Trading Policies

A venture issuer must take steps reasonably designed to become aware of and to deter or prevent each person that is in a special relationship with the venture issuer, when they have knowledge of a material fact or material change with respect to the venture issuer that has not been generally disclosed, from

(a) buying or selling or otherwise entering into a transaction with respect to a prescribed security,

(b) except as necessary in the course of business, informing (“tipping”) another person of the material fact or material change, and

(c) recommending or encouraging another person to buy, sell or otherwise enter into a transaction with respect to a prescribed security.

Guidance:

(1) *Policies and procedures that could significantly assist the board of directors in complying with the obligation in section 6 include those that:*

(a) *are designed to ensure directors, executive officers, employees and consultants are aware of the venture issuer’s trading policies and the securities law prohibitions on insider trading, tipping and recommending, when a person is in possession of undisclosed material information;*

(b) *identify persons who typically have access to undisclosed material information;*

(c) *establish certain black-out periods during which trading by persons with access to undisclosed material information is prohibited, for example, during the preparation of and for some specified period (perhaps 2 trading days) after filing of the annual report, mid-year report or a news release containing material information;*

(d) *establish procedures for limiting the persons who have access to undisclosed material information before it is properly disclosed; and*

(e) *implement procedures to enable the board and management to become aware on a timely basis that undisclosed material information exists or is expected to become known within the venture issuer so that steps can be taken promptly to deal with it appropriately.*

Policies and processes can be implemented in a variety of ways, for example, by formally adopting corporate policies or by including them as terms of employment and consulting agreements.

Part 5 of National Policy 51-201 Disclosure Standards provides guidance on establishing corporate disclosure policies and insider trading policies and other useful disclosure practices.

(2) *Part 3 of National Policy 51-201 Disclosure Standards provides additional guidance on the meanings of the term “special relationship” and the phrase “necessary course of business”. Part 4 of that policy provides guidance on assessing materiality.*

PART 4 PERIODIC DISCLOSURE

7. Approval and Filing of Annual Report

- (1) A venture issuer must file an annual report for each financial year ended after becoming a venture issuer.
- (2) A report referred to in subsection (1) must be filed on or before the 120th day after the end of its most recently completed financial year.
- (3) The board of directors of the venture issuer must approve the annual report before it is filed.

Guidance:

Under subsection 5(2)(c), the audit committee is required to first make a recommendation to the board of directors regarding whether to approve the annual financial statements, applicable auditor's report and associated MD&A forming part of the annual report.

8. Annual Report and Annual Financial Statements

- (1) A venture issuer must prepare an annual report in accordance with Form 51-103F1.
- (2) A venture issuer's annual report must contain financial statements that
 - (a) include a statement of comprehensive income, a statement of changes in equity, and a statement of cash flows for
 - (i) the most recently completed financial year, and
 - (ii) the financial year immediately preceding the most recently completed financial year, if any;
 - (b) if the venture issuer presents the components of profit or loss in a separate income statement, display the separate income statement immediately before the statement of comprehensive income filed under paragraph (a);
 - (c) include a statement of financial position as at the end of each of the periods referred to in paragraph (a);
 - (d) include a statement of financial position as at the beginning of the financial year immediately preceding the most recently completed financial year in the case of a venture issuer that discloses in its annual financial statements an unreserved statement of compliance with IFRS and that
 - (i) applies an accounting policy retrospectively in its annual financial statements,
 - (ii) makes a retrospective restatement of items in its annual financial statements, or
 - (iii) reclassifies items in its annual financial statements,
 - (e) in the case of a venture issuer's "first IFRS financial statements", as that phrase is defined in Canadian GAAP applicable to publicly accountable enterprises, include the opening IFRS statement of financial position at the "date of transition to IFRSs", as that phrase is defined in Canadian GAAP applicable to publicly accountable enterprises, and
 - (f) include notes to the annual financial statements.

- (3) The annual financial statements contained in the annual report must be audited.
- (4) The CEO and CFO of the venture issuer must certify the annual report as set out in Form 51-103F1.
- (5) If a venture issuer has outstanding restricted securities, or securities that are directly or indirectly convertible into restricted securities or securities that will, when issued, result in an existing class of outstanding securities being considered restricted securities, the venture issuer must comply with Part 10 of Regulation 51-102 respecting Continuous Disclosure Obligations as if it were a senior unlisted issuer to which that regulation applies and include the disclosure required by Part 10 of that regulation in the annual report.

Guidance:

- (1) *Form 51-103F1 Annual and Mid-Year Reports requires that the venture issuer's annual financial statements and the associated auditor's report be included in the annual report. The annual report must also be certified by the CEO and CFO.*
- (2) *Because the definition of annual financial statements in this regulation includes both the financial statements for the most recently completed financial year and the corresponding financial statements for the financial year immediately preceding the most recently completed financial year, a venture issuer will generally be required to include audited financial statements for the 2 most recently completed financial years.*
- (3) *Canadian GAAP applicable to publicly accountable enterprises provides an issuer 2 alternatives in presenting its income: (a) in one single statement of comprehensive income, or (b) in a statement of comprehensive income with a separate income statement. If an issuer presents its income using the second alternative, both statements must be filed to satisfy the requirements of paragraphs 8(2)(b) and 10(2)(b) of this regulation.*

9. Approval and Filing of Mid-Year Report

- (1) A venture issuer must file a mid-year report for each mid-year period ended after becoming a venture issuer.
- (2) A report referred to in subsection (1) must be filed on or before the 60th day after the end of its most recently completed mid-year period.
- (3) The board of directors or the audit committee of the venture issuer must approve the mid-year report before it is filed.

10. Mid-Year Report and Mid-Year Interim Financial Report

- (1) A venture issuer must prepare its mid-year report in accordance with Form 51-103F1.
- (2) A venture issuer's mid-year report must contain a mid-year interim financial report that
- (a) includes a statement of comprehensive income, a statement of changes in equity, and a statement of cash flows for
 - (i) the most recent mid-year period, and
 - (ii) the mid-year period in the immediately preceding financial year, if any;
 - (b) if the venture issuer presents the components of profit or loss in a separate income statement, displays the separate income statement immediately before the statement of comprehensive income filed under paragraph (a);
 - (c) includes a statement of financial position as at the end of each of
 - (i) the period referred to in paragraph (a)(i), and

(ii) the immediately preceding financial year

(d) in the case of a venture issuer's mid-year interim financial report in the year of adopting IFRS, includes the opening IFRS statement of financial position at the "date of transition to IFRSs," as that phrase is defined in Canadian GAAP applicable to publicly accountable enterprises, and

(e) includes notes to the mid-year interim financial report.

(3) The CEO and CFO of the venture issuer must certify the mid-year report as set out in Form 51-103F1.

Guidance:

(1) A mid-year report is required to be prepared in Form 51-103F1 Annual and Mid-Year Reports. It is required to include the venture issuer's mid-year interim financial report and certain additional information, including MD&A. It is required to be certified by the venture issuer's CEO and CFO.

(2) Mid-year interim financial reports are interim financial reports as that term is defined in Canadian GAAP applicable to publicly accountable enterprises. The term "interim financial report" is the term used under IFRS to refer to what was previously called "interim financial statements".

11. First Annual Financial Statements and Mid-Year Interim Financial Reports After Becoming a Reporting Issuer

(1) Despite any other provision of this Part, a venture issuer must file annual financial statements and an interim financial report for each annual and mid-year period immediately following the periods covered by the financial statements and interim financial reports of the venture issuer in the document filed

(a) that resulted in the venture issuer becoming a reporting issuer, or

(b) in respect of a transaction that resulted in the venture issuer becoming a reporting issuer.

(2) If subsection (1) requires a venture issuer to file annual financial statements or an interim financial report for a period that ended on or before the date the venture issuer became a reporting issuer, those must be filed by the later of

(a) in the case of annual financial statements,

(i) the 20th day after the venture issuer became a reporting issuer,

(ii) the filing deadline in subsection 7(2).

(b) in the case of an interim financial report,

(i) the 10th day after the venture issuer became a reporting issuer,

(ii) the filing deadline in subsection 9(2).

(3) A venture issuer is not required to provide comparative financial information for mid-year periods that ended before the venture issuer became a reporting issuer if all of the following apply:

(a) the board of directors or audit committee, acting reasonably, determines that it is impracticable to present prior-period information on a basis consistent with the requirements for an interim financial report,

(b) the prior-period information that is available is presented,

(c) the notes to the interim financial report disclose the fact that the prior-period information has not been prepared on a basis consistent with the most recent interim financial report.

(4) Annual financial statements filed under this Part must be audited.

Guidance:

(1) *Section 11 is intended to provide investors with access to the current financial history of the venture issuer by requiring venture issuers to file financial statements for all annual periods and interim financial reports for all mid-year periods that ended after the periods that are covered by the financial statements and interim financial reports which were included in the prospectus, information circular or other document that was filed in connection with the venture issuer becoming a reporting issuer.*

(2) *Securities regulatory authorities are of the view that it is only “impracticable to present prior-period information” if the venture issuer has made every reasonable effort to present prior-period information on a basis consistent with the interim financial report. We are of the view that an issuer should only rely on this exemption in unusual circumstances and generally not for reasons related solely to the cost or the time involved in preparing the interim financial report.*

12. Delivery Options for an Annual Report or Mid-Year Report

A venture issuer must send its annual report and mid-year report to each registered securityholder using one or any combination of the following methods:

(a) the method set out in section 4.6 of Regulation 51-102 respecting Continuous Disclosure Obligations as if the venture issuer were a senior unlisted issuer to which that regulation applies;

(b) a method to which the registered securityholder consents;

(c) a method that satisfies all of the following:

(i) the venture issuer must issue a news release disclosing the filing of each annual report and mid-year report as soon as reasonably practicable, and in any event within 3 business days of the filing,

(ii) the news release must do each of the following

(A) provide the address of the SEDAR website and the specific address and/or a link to the specific page on another website, at which the annual report or mid-year report, as applicable, can be viewed electronically,

(B) disclose that a registered securityholder may request from the venture issuer a copy of the most recently filed annual report or mid-year report, as applicable, free of charge,

(C) disclose contact details including at least a toll-free phone number, which may be a number that permits collect calls, through which the request can be made,

(iii) if a registered securityholder of the venture issuer requests a copy of an annual report or mid-year report, the venture issuer must send the most recently filed annual report or mid-year report, as applicable, to the registered securityholder, without charge, as soon as reasonably practicable following the request and, in any event, within three business days of the request by either

(A) sending a paper copy by pre-paid mail, courier or another method that provides delivery within an equivalent time period,

(B) any other method to which the registered securityholder consents.

Guidance:

(1) Section 12 of this regulation permits use of a notice and access system as an alternative to mailing the annual report or mid-year report. However, applicable corporate law or the legal documents creating or establishing the issuer may impose a requirement that the annual financial statements be placed before or sent to the securityholders.

(2) This regulation only addresses the notification and delivery requirements for registered securityholders. Regulation 54-101 respecting Communication with Beneficial Owners of Securities of a Reporting Issuer addresses delivery obligations with respect to beneficial securityholders.

(3) References to "interim financial report" and "interim MD&A" as used in section 4.6 of Regulation 51-102 respecting Continuous Disclosure Obligations mean, in the context of this regulation, the mid-year report.

13. Interim Financial Reports for Optional Interim Periods

(1) If the board of directors of a venture issuer decides to file an interim financial report for an optional interim period, the venture issuer must, on or before the end of the first optional interim period for which they intend to file an interim financial report, issue and file a news release disclosing the decision and indicating the first optional interim period for which an interim financial report will be filed.

(2) If a venture issuer files an interim financial report for an optional interim period

(a) it must file it on or before the 60th day after the end of the optional interim period,

(b) the board of directors or the audit committee of the venture issuer must approve the interim financial report before it is filed,

(c) if an auditor has not performed a review of the interim financial report, the interim financial report must include a notice stating that fact,

(d) if an auditor was engaged to perform a review of the interim financial report and

(i) the auditor was unable to complete the review, a notice must be filed with the interim financial report disclosing that fact and the reasons for the inability to complete the review,

(ii) there was any reservation of opinion in the auditor's interim review report, the interim review report must be filed with the interim financial report.

(3) If a venture issuer has filed an interim financial report for an optional interim period the venture issuer must file the following additional interim financial reports for each of the following optional interim periods:

(a) if the first interim financial report filed was for the period commencing on the first day of the financial year ending 9 months before the venture issuer's financial year end, the next 3 optional interim periods;

(b) if the first interim financial report filed was for the period commencing on the first day of the financial year and ending 3 months before the venture issuer's financial year end, the next 4 optional interim periods.

(4) If the board of directors of a venture issuer that has filed an interim financial report for an optional interim period decides to cease filing interim financial reports for optional interim periods then, on or before the last day of the financial year immediately preceding the financial year that the venture issuer will cease filing interim financial reports for optional interim periods, the venture issuer must issue and file a news release disclosing its intention to cease filing

interim financial reports for optional interim periods and indicating the last optional interim period for which an interim financial report will be filed.

(5) Subsections (1) through (4) do not apply to a venture issuer if the only interim financial reports for optional interim periods that were filed were filed with either a prospectus, or an information circular prepared in connection with a restructuring transaction or major acquisition.

Guidance:

(1) Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards requires that, subject to certain exceptions, all financial statements (which is defined in that regulation to include interim financial reports) "filed" be prepared in accordance with Canadian GAAP applicable to publicly accountable enterprises and disclose

(a) in the case of annual financial statements, an unreserved statement of compliance with IFRS

(b) in the case of an interim financial report, an unreserved statement of compliance with International Accounting Standard 34 Interim Financial Reporting, as amended from time to time.

Annual financial statements and interim financial reports (including those filed for an optional interim period) must comply with that regulation.

(2) This regulation does not require that interim financial reports prepared for an optional interim period be mailed to shareholders.

(3) This regulation does not require that interim financial reports prepared for an optional interim period be accompanied by MD&A or a certificate of the CEO or CFO. However, the interim financial report and any accompanying discussion, analysis or other narrative are subject to the statutory prohibitions against misrepresentations.

(4) The purpose of subsection (4) is to ensure that venture issuers announce the decision to cease filing interim financial reports for optional interim periods prior to the end of the financial year in which the venture issuer will file its last interim financial report for an optional interim period.

PART 5 PROXY SOLICITATION AND INFORMATION CIRCULARS

14. Requirements for Proxy Form and Information Circular

(1) If management of a venture issuer gives notice to registered securityholders of a meeting of securityholders, management must, at or before the time of giving that notice, send to each registered securityholder who is entitled to notice of the meeting

- (a) a proxy form, and
- (b) an information circular.

(2) If a person, other than management of a venture issuer, solicits proxies from registered securityholders of a venture issuer, the person must, at or before the time of solicitation, send to each registered securityholder of the venture issuer, other than itself, whose proxy is solicited, an information circular.

(4) An information circular required to be filed or sent under this Part must comply with Form 51-103F4.

(5) A person required to send a document under this Part, must promptly file

15. Delivery Options for Proxy Form

A person required to send a proxy form to a registered securityholder under this Part must use one or any combination of the following methods:

- (a) send paper copies by prepaid mail, courier or another method that provides for delivery in an equivalent time period,
- (b) any delivery method to which that registered securityholder consents.

16. Delivery Options for Information Circular and Proxy Related Material

(1) A person required to send an information circular or any other proxy related material to a registered securityholder under this Part must use one or any combination of the following methods:

- (a) send paper copies by prepaid mail, courier or another method that provides for delivery in an equivalent time period,
- (b) a method to which the registered securityholder consents,
- (c) a method that satisfies the following:

(i) at least 30 days before the date fixed for the meeting, send, at no cost to a registered securityholder, in one of the methods described in paragraphs (a) or (b), a document (the "access document") containing all of the following information, and no other information:

A. the information required in the access document;

B. if management is using the procedures in this paragraph only in respect of certain registered securityholders, an explanation of this decision;

(iii) from the day the person soliciting proxies sends the documents required by paragraph (a) until at least the date of the meeting for which proxies are being solicited

A. provide public electronic access, to the extent reasonably practicable, through a website, other than SEDAR, to the information circular and all other proxy-related material in a format that permits a person with a reasonable level of computer skill and knowledge to access, read, search, download and print the document,

B. maintain a toll-free telephone number that can be used by registered securityholders to request a paper copy of the information circular and other proxy-related materials;

(iv) if a request is received by a registered securityholder for a paper copy of the information circular or other proxy-related materials, send the information circular or other proxy-related materials, as applicable, to the registered securityholder in a method described in paragraph (a) or (b) no later than three business days after the request is received;

(v) in the case of a solicitation by or on behalf of management of a venture issuer, where management sends paper copies of the information circular to other registered securityholders, send the paper copies to those other registered securityholders on the same day as they are sent under paragraph (a).

(2) A venture issuer that uses the notice and access procedures in subsection (1)(c) to send proxy-related materials to a registered securityholder must do the following not more than 6 months and not less than 3 months before the expected date for the first meeting for which proxy-related materials will be sent by notice and access:

(b) issue a news release stating that the venture issuer intends to use notice and access procedures to deliver proxy-related materials and providing the website address where the document in paragraph (i) is posted.

Guidance:

(1) Section 16 of this regulation permits use of a notice and access system as an alternative to mailing an information circular. However, applicable corporate law or constating documents may impose a mailing requirement.

(2) This regulation only addresses the notification and delivery requirements for registered securityholders. Regulation 54-101 respecting Communication with Beneficial Owners of

Securities of a Reporting Issuer addresses delivery obligations with respect to beneficial securityholders.

17. Dissident Proxy Solicitation Exemption

(1) Despite subsection 14(2), a person, other than management of a venture issuer or a person acting on behalf of management, may solicit proxies from registered securityholders of a venture issuer without sending an information circular if

(a) the solicitation is made to the public by broadcast, speech or publication, in a manner legally permitted by the laws under which the venture issuer is incorporated, organized or continued,

(b) in the case of a solicitation that occurs in connection with a restructuring transaction,

(i) the following information is contained in the broadcast, speech or publication:

A. the name and address of the venture issuer to which the solicitation relates,

B. the information required by sections 7 and 21(2) and (4) of Form 51-103F4,

C. whether the person giving a proxy has the right to revoke it and, if so, a description of any limitations on or conditions to the right to revoke,

D. a statement identifying the document referred to in paragraph (b)(ii)A and indicating that it is or will be available at www.sedar.com,

(ii) all of the following documents are filed:

A. a document containing the information required by subparagraphs (b)(i)A, B and C,

B. any information required to be disclosed or sent to securityholders by the laws under which the venture issuer is incorporated, organized or continued,

(c) in the case of a solicitation that occurs in connection with the nomination of a director,

(i) a document containing the information required by Part 4 of Form 51-103F4 is filed,

(ii) the broadcast, speech or publication indicates that the solicitation is made in connection with the nomination of a director, identifies the document in paragraph (c)(i) and indicates that it is or will be available at www.sedar.com.

(2) A solicitation under section (1) will not be considered to be made to the public unless it is disseminated in a manner calculated to be reasonably effective in reaching the market for the venture issuer's voting securities by way of one or more of the following:

(a) a speech in a public forum that is generally accessible;

(b) a news release, statement or advertisement provided through a news wire, broadcast medium, magazine or newspaper of general and widespread circulation, telephone conference call, webcast or similar communication facility that is generally accessible.

(3) Subsection (1) does not apply to a person that is proposing, at the time of the solicitation, a transaction that would be a restructuring transaction or major acquisition, that would involve the venture issuer and the person or an affiliated entity of the person, if in relation to the transaction the securities of the person, or securities of an affiliated entity of the person, are to be changed, exchanged, issued or distributed unless

(a) the person has filed an information circular or other document containing the information required by Form 51-103F4 in respect of either or both of the transactions, and

(b) the solicitation refers to that information circular or other document and discloses that the information circular or other document is available on SEDAR.

(4) Subsection (1) does not apply to a person that is nominating or proposing to nominate, at the time of the solicitation, an individual, including him or herself, for election as a director of the venture issuer unless

(a) the person has filed an information circular or other document containing the information required by of Form 51-103F4 in respect of the proposed nominee, and

(b) the solicitation refers to that information circular or other document and discloses that the information circular or other document is available on SEDAR.

Guidance:

The definition of solicit and solicitation in this regulation may differ from applicable corporate law or the issuer's constating documents. For example, corporate law may impose additional obligations or restrictions on persons soliciting proxies in connection with a dissident information circular.

18. Other Solicitation Exemptions

(1) Section 14(2) does not apply if the total number of securityholders whose proxies are solicited is not more than 15 where joint registered securityholders are counted as a single registered securityholder.

(2) Sections 14 to 17 do not apply to a venture issuer, or a person that solicits proxies from registered securityholders if

(a) the venture issuer or other person complies with the requirements of the laws relating to solicitation of proxies under which the venture issuer is incorporated, organized or continued,

(b) those requirements are substantially similar to the requirements of this Part, and

(c) the venture issuer or other person promptly files a copy of each form of proxy, information circular or other document that contains substantially similar disclosure, sent by the person in connection with the meeting.

PART 6 MATERIAL CHANGES, MATERIAL RELATED ENTITY TRANSACTIONS AND MAJOR ACQUISITIONS

19. Disclosure of Material Changes, Material Related Entity Transactions and Major Acquisitions

A venture issuer must immediately issue and file a news release authorized by an executive officer disclosing any of the following

- (a) a material change,
- (b) a material related entity transaction,
- (c) a decision to implement a material related entity transaction made either
 - (i) by the board of directors of the venture issuer,
 - (ii) by senior management of the venture issuer who believe that confirmation of the decision by the board of directors is probable,
- (d) the closing of a major acquisition.

20. Contents of Report of Material Change, Material Related Entity Transaction or Major Acquisition

- (1) Upon the occurrence of any of the events referred to in section 19, a venture issuer must prepare and file a report either
 - (a) in accordance with Form 51-103F2, or
 - (b) as a news release that
 - (i) contains the information required by Form 51-103F2, other than that relating to a prior news release, and
 - (ii) in the title of the news release identifies whether the report is a report of a material change, material related entity transaction or major acquisition.

Guidance:

If a report of material change, material related entity transaction or major acquisition is prepared in the form of a news release under paragraph 20(1)(b) and filed in the SEDAR category for reports of material change, material related entity transaction or major acquisition, it does not need to also be filed as a news release. However, the reverse is not true. If a report of material change, material related entity transaction or major acquisition is prepared in the form of a news release it is not sufficient to file it only in the SEDAR category for news releases. The news release must also be filed in the SEDAR category for reports of material change, material related entity transaction or major acquisition.

- (2) A report filed pursuant to subsection (1) in respect of the closing of a major acquisition must include, or incorporate by reference, the financial statements and interim financial report for the business or related businesses required by section 22.

21. Filing Deadline for Report of Material Change, Material Related Entity Transaction or Major Acquisition

- (1) As soon as practicable but in any case by the 10th day after any of the events referred to in section 19, a venture issuer must file a report of material change, material related entity transaction or major acquisition, disclosing the event.
- (2) Despite subsection (1), the venture issuer may file the financial statements or interim financial report for a major acquisition either

- (a) within 75 days after the acquisition date, or
- (b) if the most recently completed financial year of the acquired business ended 45 days or less before the acquisition date, within 120 days after the acquisition date.

22. Financial Statement Requirements for a Major Acquisition

(1) A report filed under section 20 in respect of the closing of a major acquisition must include, or incorporate by reference, each of the following for each business or related business:

- (a) a statement of comprehensive income, a statement of changes in equity and a statement of cash flows for the following periods

- (i) if the business has completed one financial year

- A. the most recently completed financial year ended on or before the acquisition date,

- B. the financial year immediately preceding the most recently completed financial year, if any,

- (ii) if the business has not completed one financial year, the financial period commencing on the date of formation and ending on a date not more than 45 days before the acquisition date;

- (b) a statement of financial position as at the end of each of the periods specified in paragraph (a);

- (c) notes to the financial statements.

(2) The most recently completed financial period referred to in subsection (1) must be audited.

(3) A report filed under section 20 in respect of the closing of a major acquisition must include, or incorporate by reference, interim financial reports for each business or related business for each of the following:

- (a) the most recently completed mid-year period, or other period, that started the day after the date of the statement of financial position specified in paragraph (1)(b) and ended

- (i) in the case of a mid-year period, before the acquisition date, or

- (ii) in the case of a period other than a mid-year period, after the mid-year period referred to in subparagraph (i) and on or before the acquisition date; and

- (b) a comparable period in the preceding financial year of the business.

(4) If a venture issuer relies on the exemption in subsection 21(2) to file annual financial statements required under subsection (1) or an interim financial report required under subsection (3), the financial statements and interim financial report, as applicable, must be accompanied by a notice that discloses each of the following

- (a) a title stating “Addendum to Report of Material Change, Material Related Entity Transaction or Major Acquisition”;

- (b) the fact that the annual financial statements or interim financial report relate to a major acquisition and the acquisition date;

- (c) the date of the report of material change, material related entity transaction or major acquisition to which they relate.

(5) This section does not apply to a restructuring transaction.

Guidance:

Section 5 of Form 51-103F2 Report of Material Change, Material Related Entity Transaction or Major Acquisition requires that if information is incorporated by reference into a report that information must be filed by the venture issuer under its filer profile for SEDAR.

23. Contents of Mid-Year Interim Financial Report - Canadian GAAP Applicable to Private Enterprises

If a venture issuer is required under subsection 22(3) to include an interim financial report in a report of material change, material related entity transaction or major acquisition and the interim financial report for the business or related business acquired is prepared in accordance with Canadian GAAP applicable to private enterprises, as permitted under Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards, the interim financial report must include each of the following:

- (a) a balance sheet as at the end of the mid-year period and a balance sheet as at the end of the immediately preceding financial year, if any;
- (b) an income statement, a statement of retained earnings and a cash flow statement, all for the mid-year period, and comparative financial information for the corresponding mid-year period in the immediately preceding financial year, if any;
- (c) notes to the interim financial report.

24. Financial Statements for Related Businesses

If a venture issuer is required under section 22 to include financial statements for more than one business because a major acquisition involves an acquisition of related businesses, the financial statements required must be presented separately for each business, except for the periods during which the businesses have been under common control or management, in which case the venture issuer may present the financial statements of the businesses on a combined basis.

25. Exemption for Major Acquisitions Accounted for Using the Equity Method

A venture issuer is exempt from section 22 if

- (a) the acquisition is, or will be, of an equity investee;
- (b) the report of material change, material related entity transaction or major acquisition includes disclosure for the periods for which financial statements are otherwise required under subsection 22(1) that
 - (i) summarizes financial information of the equity investee, including the aggregated amounts of assets, liabilities, revenue and profit or loss; and
 - (ii) describes the venture issuer's proportionate interest in the equity investee and any contingent issuance of securities by the equity investee that might significantly affect the venture issuer's share of profit or loss;
- (c) the financial information provided under paragraph (b) for the most recently completed financial year
 - (i) has been derived from audited financial statements of the equity investee;
 or
 - (ii) has been audited; and
- (d) the report of material change, material related entity transaction or major acquisition

(i) identifies the financial statements referred to in subparagraph (c)(i) from which the disclosure provided under paragraph (b) has been derived; or

(ii) discloses that the financial information provided under paragraph (b), if not derived from audited financial statements, has been audited; and

(iii) discloses that the auditor expressed an unmodified opinion with respect to the financial statements referred to in subparagraph (i) or the financial information referred to in subparagraph (ii).

26. Exemption for Major Acquisitions if Financial Year End Changed

If under section 22 a venture issuer is required to provide financial statements for a business acquired and the business changed its financial year end during either of the financial years required to be included, the venture issuer may include financial statements for the transition year in satisfaction of the financial statements for one of the years, provided that the transition year is at least 9 months.

27. Exemption from Comparatives if Mid-Year Interim Financial Report Not Previously Prepared

A venture issuer is not required to provide comparative information for an interim financial report required under subsection 22(3) for a business acquired if

(a) to a reasonable person it is impracticable to present prior-period information on a basis consistent with the most recently completed mid-year period of the acquired business;

(b) the prior-period information that is available is presented; and

(c) the notes to the interim financial report disclose the fact that the prior-period information has not been prepared on a basis consistent with the most recent mid-year financial information.

Guidance:

Securities regulatory authorities are of the view that it is only "impracticable to present prior-period information" if the venture issuer has made every reasonable effort to present prior-period information on a basis consistent with the interim financial report. We are of the view that an issuer should only rely on this exemption in unusual circumstances and generally not for reasons related solely to the cost or the time involved in preparing the financial statements or interim financial report.

28. Exemption for Multiple Investments in the Same Business

Despite section 22, a venture issuer is exempt from the requirements to include, or incorporate by reference, financial statements and interim financial reports, as applicable, for an acquired business in a report of material change, material related entity transaction or major acquisition if the venture issuer has made multiple investments in the same business and the acquired business has been consolidated in the venture issuer's most recent annual financial statements that have been filed.

29. Exemption for an Acquisition of an Interest in an Oil and Gas Property

(1) A venture issuer is exempt from the requirements in section 22 if

(a) the major acquisition is an acquisition of a business that is an oil and gas property or related businesses that are interests in oil and gas properties and that is not of securities of another issuer;

(b) the venture issuer is unable to provide the financial statements or interim financial reports in respect of the major acquisition required under section 22, or as otherwise permitted by sections 23, 25, 26, 27 or 28 because those financial statements or interim financial reports, as

applicable, do not exist or because the venture issuer does not have access to those financial statements or interim financial reports, as applicable;

(c) the acquisition does not constitute a reverse takeover;

(d) subject to subsection (2), in respect of the business or related businesses, for each of the financial periods for which financial statements or an interim financial report, as applicable, would, but for this section, be required under section 22, or as otherwise permitted by sections 23, 25, 26, 27 or 28, the report of material change, material related entity transaction or major acquisition includes each of the following

(i) an operating statement for the business or related businesses prepared in accordance with subsection 3.11(5) of Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards;

(ii) a description of the property or properties and the interest acquired by the venture issuer;

(iii) disclosure of the annual oil and gas production volumes from the business or related businesses;

(e) the operating statement for the most recently completed financial period referred to in subsection 22(1) is audited; and

(f) the report of material change, material related entity transaction or major acquisition discloses each of the following

(i) the estimated reserves and related future net revenue attributable to the business or related businesses, the material assumptions used in preparing the estimates and the identity and relationship to the venture issuer or to the seller of the person who prepared the estimates;

(ii) the estimated oil and gas production volumes from the business or related businesses for the first year reflected in the estimates disclosed under subparagraph (i).

(2) A venture issuer is exempt from the requirements of subparagraphs (1)(d)(i) and (iii), if each of the following applies:

(a) production, gross revenue, royalty expenses, production costs and operating income were nil for the business or related businesses for each financial period;

(b) the report of material change, material related entity transaction or major acquisition discloses this fact.

30. Disclosure and Financial Statements for a Restructuring Transaction

(1) If a material change, material related entity transaction or major acquisition involves the closing of a restructuring transaction include, or incorporate by reference, in the report of material change, material related entity transaction or major acquisition information, including annual financial statements and interim financial reports, if applicable, as prescribed by section 17 of Form 51-103F4.

(2) If a venture issuer relies on the exemption in subsection 21(2) to file annual financial statements required under subsection 22(1) or an interim financial report required under subsection 22(3), the financial statements and interim financial report, as applicable, must be accompanied by a notice that discloses each of the following

(a) a title stating “Addendum to Report of Material Change, Material Related Entity Transaction or Major Acquisition”;

(b) the fact that they relate to a major acquisition and the acquisition date;

(c) the date of the report of material change, material related entity transaction or major acquisition to which they relate.

(3) Despite subsection (1) if disclosure for the restructuring transaction has been included in an information circular, a prospectus, a securities exchange takeover bid circular or other filed document, a venture issuer may comply with the disclosure requirements of this section by stating the name and date of that other document and that it is available on SEDAR at www.sedar.com. The venture issuer must also include a statement that the applicable disclosure is incorporated by reference into the report of material change, material related entity transaction or major acquisition. If the other document is lengthy, the venture issuer must indicate the location of the relevant information in the other document.

Guidance:

Section 5 of Form 51-103F2 Report of Material Change, Material Related Entity Transaction or Major Acquisition requires that if information is incorporated by reference into a report that information must be filed by the venture issuer under its filer profile for SEDAR.

31. Confidential Report of Material Change

(1) Despite sections 19 and 20, a venture issuer may temporarily delay generally disclosing a material change that is not a material related entity transaction, if

(a) the venture issuer immediately delivers the report required under section 21 marked to indicate that it is confidential, and

(b) either,

(i) in the opinion of the venture issuer, and if that opinion is arrived at in a reasonable manner, the disclosure required by section 19 would be unduly detrimental to the interests of the venture issuer, or

(ii) the material change consists of a decision to implement a change made by senior management of the venture issuer who believe that confirmation of the decision by the board of directors is probable, and senior management has no reason to believe that a person with knowledge of the material change has made use of that knowledge to buy or sell a prescribed security of the venture issuer.

(2) If a venture issuer has filed a report under paragraph (1)(a), and the venture issuer believes the report should continue to remain confidential, the venture issuer must advise the securities regulatory authority or, except in Ontario and Québec, the regulator, in writing of this within 10 days of the date of filing of the initial report and every 10 days after that until either of the following applies

(a) the material change is generally disclosed as required under paragraph 19(a),

(b) if the material change consists of a decision of the type referred to in subparagraph (1)(c)(ii), until that decision has been rejected by the board of directors of the venture issuer.

(3) If a report has been filed under paragraph (1)(a) and the venture issuer becomes aware of or has reasonable grounds to believe that a person with knowledge of the material change that has not been generally disclosed has bought or sold or is buying or selling a prescribed security of the venture issuer, the venture issuer must promptly generally disclose the material change as required by sections 19 and 21.

PART 7 OTHER REQUIRED DISCLOSURE

32. Disclosure Made in Other Jurisdictions or Sent to Securityholders

(1) A venture issuer must concurrently file any disclosure document, other than one filed in connection with a distribution, that contains material information that has not previously been filed if any one or more of the following applies:

- (a) it sends it to its securityholders,
- (b) it files it with a securities regulatory authority or regulator, in another province or territory,
- (c) in the case of an SEC issuer, it files it with or furnishes it to the SEC under the 1934 Act, including material information filed as an exhibit to another document, that has not been included in a document already filed by the SEC issuer in a jurisdiction, or
- (d) it files it with a foreign securities regulatory authority.

(2) Despite subsection (1) if a concurrent filing is not reasonably practicable, the venture issuer must file the disclosure document as soon as it is reasonably practicable.

Guidance:

Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards requires that, subject to certain exceptions, all financial statements and interim financial reports "filed" be prepared in accordance with Canadian GAAP applicable to publicly accountable enterprises and, if required by securities legislation to be audited, must be audited in accordance with Canadian GAAS. Accordingly, if a financial statement, interim financial report and/or auditors' report is required to be filed because of section 32 it must comply with Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards.

33. Change of Reporting Issuer Status or Name

(1) An issuer must file a notice after each of the following circumstances:

- (a) it becomes a reporting issuer, other than by filing a prospectus;
- (b) it changes its name;
- (c) it becomes a venture issuer;
- (d) it ceases to be a venture issuer.

(2) The notice required under subsection (1) must be filed as soon as practicable, and in any event not later than the deadline for the first filing required under this regulation following the change in circumstances referred to in subsection (1).

(3) The notice required under subsection (1) must disclose each of the following:

- (a) each of the circumstances under subsection (1) that apply to the issuer and any other party to a transaction that occurred in connection with the change of status or change of name;
- (b) the significant terms of any transaction that occurred in connection with the change of status or change of name, including the names of the parties and the effective date of the transaction;
- (c) if paragraph (1)(a) applies, each of the following,
 - (i) the date of the first financial year-end for the reporting issuer after becoming a reporting issuer,

(ii) the periods, including comparative periods, if any of the interim financial reports and annual financial statements required to be filed for the venture issuer's first financial year after becoming a reporting issuer,

(iii) the documents that were filed under this regulation describing the transaction and where those documents can be found on SEDAR.

(4) This section does not apply if the venture issuer has disclosed the change of status or change of name as a material change under Part 6 and files a copy of the report of material change, material related entity transaction or major acquisition in the SEDAR category for changes in status.

Guidance:

If an issuer ceases or intends to cease to be a reporting issuer refer to CSA Staff Notice 12-307 Applications for a Decision that an Issuer is not a Reporting Issuer. If an issuer fails to file the applicable notice, regulators will not receive notice to update their records and may continue to report the issuer on a list of defaulting issuers.

34. Securityholder Documents and Material Contracts

(1) A venture issuer must file each of the following documents and any material amendment to these documents:

(a) the constating documents establishing the venture issuer, including any articles or memorandum of incorporation, association, amalgamation or continuation;

(b) the venture issuer's existing by-laws or similar instruments;

(c) any material securityholder or voting trust agreement that the venture issuer has access to;

(d) any material securityholders' rights plan or similar plan or contract of the venture issuer or a subsidiary of the venture issuer that significantly affects the rights or obligations of securityholders;

(e) a material contract.

(2) A venture issuer may omit or make a provision of a material contract unreadable if

(a) an executive officer of the venture issuer reasonably believes that disclosure of the provision would be seriously prejudicial to the interests of the venture issuer or violate confidentiality provisions,

(b) the provision does not relate to

(i) debt covenants and ratios in a financing or credit agreement,

(ii) events of default or other terms relating to the termination of a material contract,

(iii) other terms necessary for understanding the impact of the material contract on the venture issuer's business; and

(c) the venture issuer includes a description of the type of information that has been omitted or made unreadable in the material contract, immediately below the omitted or unreadable provision.

(3) The documents required to be filed under (1) must be filed no later than the earlier of:

(a) when the venture issuer files a report in Form 51-103F2, if the making of a document is a material change for the issuer;

- (b) when the venture issuer's annual report is filed.

Guidance:

(1) *Venture issuers should consider their securities law disclosure obligations when negotiating material contracts. Securities regulatory authorities or regulators will only consider exemptions from section 34(2)(b) in limited circumstances such as where it is reasonable for an executive officer of the venture issuer to consider that the disclosure would be seriously prejudicial to the venture issuer and the contract was negotiated before the issuer was a reporting issuer.*

(2) *Disclosure that would violate applicable privacy legislation in Canada could be “seriously prejudicial”; however, generally when securities legislation requires disclosure of a particular type of information, applicable privacy legislation provides an exemption for the disclosure.*

35. Change of Auditor

(1) This section does not apply to a change of auditor required by legislation or resulting from a take-over, reorganization, merger or amalgamation unless one of the principal purposes of that transaction is to avoid making the disclosure required by this section.

(2) A venture issuer that changes its auditor must, as soon as practicable following the change, and in any event not later than the deadline for the first filing required under this regulation following the change of auditor,

(a) prepare and deliver to its former and successor auditors a report describing the reasons for and circumstances surrounding the change, including details of any disagreement or reason related to the content or presentation of the venture issuer's annual financial statements or interim financial reports, any modified opinion or reservation of opinion related to the venture issuer's annual financial statements or interim financial reports, and the nature and extent of discussions between the venture issuer's former auditor and its audit committee or board of directors, and

(b) file a notice disclosing the change of auditor, including the report referred to in paragraph (a).

(3) If a former or successor auditor concludes that the venture issuer's report fails to fairly and fully provide the information required by paragraph (2)(a), it must deliver a letter notifying the securities regulatory authority of the deficiency.

Guidance:

Form 51-103F4 Information Circular requires that the report referred to in paragraph 35(2)(a) be included in the next information circular that is sent and filed in connection with a meeting at which securityholders will be asked to appoint an auditor.

36. Financial News Release

If a venture issuer issues a news release disclosing information about its historical or prospective financial performance or financial condition, the venture issuer must promptly file that news release.

Guidance:

Subsection 5(2) requires that the news release be approved by the audit committee before it is issued.

37. Forward-Looking Information, FOFI and Financial Outlooks

(1) A venture issuer that discloses material forward-looking information, other than in oral statements, must have a reasonable basis for that forward-looking information, and must do each of the following, in connection with disclosing the material forward-looking information:

(a) identify the statements that contain the material forward-looking information;

(b) caution users of the material forward-looking information that actual results may vary from the material forward-looking information and identify material known and reasonably foreseeable risk factors that could cause actual results to differ materially from the material forward-looking information;

(c) state the material factors or assumptions used to develop the material forward-looking information;

(d) describe any policy of the venture issuer for updating material forward-looking information, beyond that which is required by section 21 of Form 51-103F1.

(2) A venture issuer may only disclose material forward-looking information about prospective financial performance, financial position or cash flows that is based on assumptions about future economic conditions and courses of action, (regardless of whether it is presented in the format of a historical statement of financial position, statement of comprehensive income or statement of cash flows, that is, as “future oriented financial information” or “FOFI”, or presented in some other manner as a “financial outlook”) if

(a) at the time of disclosure, the assumptions are reasonable in the circumstances,

(b) such information is limited to a period for which it can be reasonably estimated, and

(c) the venture issuer uses the accounting policies it expects to use to prepare its historical annual financial statements and interim financial reports for the period covered by such information.

(3) A venture issuer that discloses information described in subsection (2) must, in addition to making the disclosure required by paragraph (1),

(a) state the date management approved the information unless the document in which the information is disclosed is dated, and

(b) explain the purpose of the information and provide a caution to readers that the information may not be appropriate for other purposes.

(4) Subsections (2) and (3) do not apply to oral statements or to either of the following:

(a) disclosure subject to the requirements of either or both of Regulation 51-101 respecting Standards of Disclosure for Oil and Gas Activities and Regulation 43-101 respecting Standards of Disclosure for Mineral Projects;

(b) disclosure that has been made to comply with an exemption previously provided from the applicable requirements of paragraph (2)(a) if that exemption has not been removed.

Guidance:

(1) *The provisions dealing with forward-looking information in section 37 would apply not only to documents filed by a venture issuer with securities regulatory authorities but also to its news releases, website and marketing materials.*

(2) *In addition to the provisions in this regulation dealing with forward-looking information, the securities legislation in certain jurisdictions contains secondary market civil liability*

provisions which create a statutory right of action on the part of persons who relied on the forward-looking information if the forward-looking information contains a misrepresentation.

Securities legislation may provide a defence to liability where there was a reasonable basis for drawing the conclusions or making the forecasts or projections set out in the forward-looking information and there is a statement proximate to the forward looking information which contains reasonable cautionary language identifying the forward-looking information and the material factors that could cause results to differ materially from it as well as a statement of material factors or assumptions that were applied in drawing the conclusion or making the forecast or project set out in the forward-looking information.

38. Change in Year End

(1) A venture issuer that decides to change its financial year-end must, as soon as practicable, and in any event not later than the deadline for the first filing required under this regulation following such decision, file a notice disclosing

(a) that it has decided to change its year-end and the reason for the change,

(b) its old financial year-end and new financial year-end,

(c) the length and ending date of the periods and comparative periods of the mid-year interim financial report and annual financial statements to be filed for its transition year and new financial year, and

(d) the filing deadlines, respectively, for the mid-year report and annual report for its transition year.

(2) For the purposes of this section,

(a) a transition year must not exceed 15 months; and

(b) the first mid-year period after an old financial year must not exceed 7 months.

(3) Despite section 10, a venture issuer is not required to file a mid-year report for:

(a) any period in its transition year if the transition year is less than 9 months in length.

(b) any period in its transition year that ends not more than 3 months

(i) after the last day of its old financial year; or

(ii) before the first day of its new financial year.

(4) If a transition year is less than 9 months in length, the venture issuer must include as comparative financial information to its annual financial statements for its new financial year

(a) a statement of financial position, a statement of comprehensive income, a statement of changes in equity, a statement of cash flows and notes to the financial statements for its transition year,

(b) a statement of financial position, a statement of comprehensive income, a statement of changes in equity, a statement of cash flows, and notes to its financial statements for its old financial year,

(c) a statement of financial position as at the beginning of the old financial year, in the case of a venture issuer that discloses in its annual financial statements an unreserved statement of compliance with IFRS and that

(i) applies an accounting policy retrospectively in its annual financial statements,

(ii) makes a retrospective restatement of items in its annual financial statements, or

(iii) reclassifies items in its annual financial statements.

(5) If the mid-year period for the venture issuer's transition year ends 6 or 12 months after the end of its old financial year, the venture issuer must include as comparative financial information in its mid-year interim financial report

(a) during its transition year, a statement of comprehensive income, a statement of changes in equity and a statement of cash flows for the corresponding mid-year period in the immediately preceding financial year, except if a mid-year period during the transition year is 12 months in length and the venture issuer's transition year is longer than 13 months, the comparative financial information must be the statement of financial position, statement of comprehensive income, statement of changes in equity and statement of cash flows for the 12 month period that constitutes its old financial year; and

(b) during its new financial year

(i) a statement of financial position as at the end of its transition year, and

(ii) a statement of comprehensive income, a statement of changes in equity and a statement of cash flows for the periods in its transition year or old financial year, for the same calendar months as, or as close as possible to, the calendar months in the mid-year period in the new financial year, and

(c) a statement of financial position as at the beginning of the earliest comparative period in the case of a venture issuer that discloses in its mid-year interim financial report a statement of compliance with International Accounting Standard 34 *Interim Financial Reporting* and that

(i) applies an accounting policy retrospectively in its annual financial statements,

(ii) makes a retrospective restatement of items in its annual financial statements, or

(iii) reclassifies items in its annual financial statements.

(6) If the mid-year period for a venture issuer's transition year ends 6 or 12 months before the end of the transition year, the venture issuer must include

(a) as comparative financial information in its interim financial reports during its transition year

(i) a statement of financial position as at the end of its old financial year, and

(ii) the statement of comprehensive income, statement of changes in equity and statement of cash flows for periods in its old financial year, for the same calendar months as, or as close as possible to, the calendar months in the mid-year period in the transition year; and

(b) as comparative financial information in its mid-year interim financial report during its new financial year

(i) a statement of financial position as at the end of its transition year, and

(ii) a statement of comprehensive income, a statement of changes in equity and a statement of cash flows in its transition year or old financial year, or both, as appropriate, for the same calendar months as, or as close as possible to, the calendar months in the Mid-Year period in the new financial year;

(c) in the case of a venture issuer that discloses in its mid-year interim financial report a statement of compliance with International Accounting Standard 34 *Interim Financial*

Reporting, a statement of financial position as at the beginning of the earliest comparative period if the venture issuer

- (i) applies an accounting policy retrospectively in its mid-year interim financial report,
- (ii) makes a retrospective restatement of items in its mid-year interim financial report, or
- (iii) reclassifies items in its mid-year interim financial report.

39. Reverse Takeovers

(1) A venture issuer that completes a reverse takeover, must file the following financial statements and interim financial reports for the reverse takeover acquirer, unless the financial statements or interim financial reports have already been filed:

(a) audited annual financial statements for all financial years and interim financial reports for each mid-year period ending before the date of the reverse takeover and after the date of the financial statements and interim financial reports, as applicable, included in either of the following documents if the document was prepared in connection with the reverse takeover

- (i) an information circular or similar document;
- (ii) under section 11 of Form 51-103F2, or

(b) if the venture issuer did not file a document referred to in paragraph (a) or the document did not include the financial statements or interim financial reports of the reverse takeover acquirer that would be required to be included in a prospectus, the financial statements and each interim financial report that the reverse takeover acquirer would be required to provide in the prospectus the reverse takeover acquirer was eligible to file immediately before the reverse takeover.

(2) The annual financial statements required by subsection (1) must be filed by the later of

- (a) the 20th day after the date of the reverse takeover, and
- (b) the 120th day after the end of the financial year.

(3) The interim financial reports for mid-year periods required by subsection (1) must be filed by the later of

- (a) the 10th day after the date of the reverse takeover,
- (b) the 60th day after the end of the mid-year period, and
- (c) the filing deadline in subsection (2).

(4) A venture issuer is not required to provide comparative mid-year period financial information in the financial statements or interim financial reports of the reverse takeover acquirer for periods that ended before the date of a reverse takeover if it is impracticable. If applicable, the notes to the interim financial report must disclose that the prior period information was not prepared on the same basis as the most recent interim financial report.

Guidance:

(1) Following a reverse takeover, the venture issuer that legally acquired the business that is now its legal subsidiary remains the reporting issuer. From a legal perspective this issuer was the acquirer; however, for accounting purposes this issuer is referred to as the reverse takeover acquiree. The venture issuer's financial statements and interim financial reports for periods ended on or after the date of the reverse takeover will reflect the financial performance of the legal subsidiary, referred to, for accounting purposes, as the reverse takeover acquirer. Consequently, the venture issuer's financial statements for annual financial years and interim

financial reports for interim periods that end on or after the date of the reverse takeover must be prepared and filed as if the reverse takeover acquirer had always been the reporting issuer.

(2) The venture issuer must also file all annual reports and mid-year reports of the reverse takeover acquiree for each annual financial year and mid-year period ending before the date of the reverse takeover, even if the filing deadline for those financial statements and interim financial reports is after the date of the reverse takeover.

(3) See the guidance following section 11 of this regulation regarding the meaning of the word "impracticable".

(4) If a venture issuer changes its year end in connection with a reverse takeover, section 38 requires that it file a notice.

40. Refiling of a Continuous Disclosure Document

A venture issuer must immediately issue and file a news release that describes the nature and substance of the change or proposed changes and that is authorized by an executive officer, if it makes a decision to re-file a document filed under either this regulation or Regulation 51-102 respecting Continuous Disclosure Obligations and the information in the re-filed document will differ materially from the information originally filed.

Guidance:

If any portion of an annual report or mid-year report differs materially from the information originally filed, the entire revised annual report or mid-year report must be re-filed and recertified.

PART 8 EXEMPTIONS

41. Discretionary Exemptions

(1) The securities regulatory authority or regulator may grant an exemption from this regulation, in whole or in part, subject to such conditions and restrictions as may be imposed in the exemption.

(2) Despite subsection (1), in Ontario only the regulator may grant such an exemption.

(3) Except in Ontario, an exemption referred to in subsection (1) may be granted under the statute referred to in Appendix B of Regulation 14-101 respecting Definitions opposite the name of the local jurisdiction or as otherwise permitted in the local jurisdiction.

42. SEC Issuers

(1) A venture issuer that is an SEC issuer satisfies the requirements of section 8 with respect to the contents of an annual report for a financial year if it

(a) files an annual report or transition report prepared under the 1934 Act on Form 10-K or Form 20-F for that financial year,

(b) files concurrently with or as soon as reasonably practicable after the filing of the report referred to in (a), the information required by Item 402 "Executive Compensation" of Regulation S-K under the 1934 Act other than, as a foreign private issuer, by providing the information required by Items 6.B "Compensation" and 6.E.2 "Share Ownership" of Form 20-F under the 1934 Act, prepared for the financial year referred to in paragraph (a),

**FORM 51-103F1
ANNUAL AND MID-YEAR REPORTS****PART 1 INSTRUCTIONS****1. Overview of Annual and Mid-Year Reports**

Audited annual financial statements and associated MD&A are an integral part of a venture issuer's annual report. An annual report also describes the venture issuer's operations, prospects and risks and provides disclosure about its directors, executive officers, governance, executive compensation and material related entity transactions. A mid-year report consists primarily of the mid-year interim financial report, associated MD&A and disclosure of material related entity transactions. See Part 9 of this form.

The last part of this form includes a disclosure certificate that must be signed by the CEO and CFO and included in an annual report and a mid-year report. By signing the certificate, the CEO and CFO certify that there is no misrepresentation in the report and that the report as a whole fairly presents, in all material respects, the venture issuer's financial condition, financial performance and cash flows for the period covered.

2. Focus on Material Information

In preparing a report, focus the disclosure on information that is material. In determining whether or not a particular matter is material, consider whether disclosing, omitting or misstating the relationship, transaction, agreement, plan or other information would likely influence or change a reasonable investor's decision as to whether or not to buy, sell or hold a security in the capital of the venture issuer.

For purposes of item 16(2), venture issuers should refer to section 2.4 of Policy Statement to Regulation 43-101 respecting Standards of Disclosure for Mineral Projects for a discussion of "materiality" in the mining context.

3. Guidelines for MD&A

MD&A should provide an explanation of the venture issuer's financial performance during the most recently completed financial year and a comparison to the prior financial year. MD&A must not be merely a repetition of the information provided in the financial statements or interim financial report or a summary of the financial statement or interim financial report changes as compared to the prior financial year. MD&A must explain the reasons for changes in the venture issuer's financial performance and financial condition.

The purpose of MD&A is to explain how management views the venture issuer's prospects and explain the methods by which management evaluates the venture issuer's business, including the key indicators it uses and the analysis performed. It should discuss information that may not be clearly or fully reflected in the financial statements or interim financial report, for example, contingent liabilities, defaults under debt, off-balance sheet financing arrangements, and other contractual commitments.

If a venture issuer completed a reverse takeover in the last two completed financial years or subsequent to the completion of the most recently completed financial year, the disclosure required for the venture issuer by sections 16 to 20 should be based primarily on the reverse takeover acquirer's financial statements and interim financial reports.

4. Defined Terms

For terms used in this form that are not defined in the form, refer to the Regulation and if not defined in the Regulation, refer to securities legislation and Regulation 14-101 respecting Definitions.

This form also uses accounting terms that are defined, or referred to, in Canadian GAAP applicable to publicly accountable enterprises. See the Guidance following section 1 of the Regulation.

5. Repetition and Incorporating Information by Reference

A venture issuer must include all of the disclosure prescribed in this form within its annual and mid-year reports. Incorporation by reference is not permitted, unless expressly stated.

Despite the above restriction, a capital pool company or CPC may incorporate by reference the disclosure required by sections 15 and 16 of this form from its initial public offering prospectus if that disclosure continues to provide all material facts in respect of the corporate structure and description of business for the CPC. To refer to previously disclosed information, provide a cross-reference, stating the name and date of that other document and that it is available on SEDAR at www.sedar.com. Also include a statement that the applicable disclosure is incorporated by reference into this report. If the other disclosure document is lengthy, indicate the location of the relevant information in the other document.

Guidance:

The annual report, in particular, should provide a complete annual disclosure record for the venture issuer with very limited information incorporated by reference. The goal is to provide investors with one disclosure document that is as complete as possible.

6. Plain Language

Use plain, easy to understand language in preparing a report. Avoid technical terms but, if they are necessary, explain them in a clear and concise manner.

7. Format

Unless otherwise stated, the numbering, headings and ordering of the items included in this form are only guidelines and do not need to be used in the report. To make the report easier to understand, present information in tables and, where possible, state amounts in figures.

8. Omitting Information

Unless this form indicates otherwise, it is not necessary to respond to an item in this form if it does not apply to the venture issuer.

9. Date of Information

Unless this form indicates otherwise, present the information in the annual report as at the last day of the venture issuer's most recently completed financial year and the information in the mid-year report as at the last day of the most recently completed mid-year period.

If presenting information as at the end of the financial period creates a misleading picture of the venture issuer's business, operations or outstanding securities, the information must also be updated to the date it is filed. Section 49 of this form requires the certificate to be dated the date the report is filed.

10. Forward-Looking Information

Any forward-looking information provided in a report must comply with section 37 of the Regulation.

11. Available Prior Period Information

If comparative financial information is not presented in the venture issuer's annual financial statements or interim financial report, provide in the MD&A the prior period information relating to financial performance that is available.

12. Use of “Financial Condition”

This form uses the term “financial condition”. Financial condition reflects the overall health of the venture issuer and includes the venture issuer’s financial position (as shown on the statement of financial position) and other factors that may affect the venture issuer’s liquidity, capital resources and solvency.

13. Table of Contents

Include a table of contents with an annual report.

Further, although management is responsible for ensuring processes are in place to provide them with the information they need to comply with disclosure obligations on a timely basis, [insert name of venture issuer] is not required to establish and maintain disclosure controls and procedures and internal control over financial reporting. [Insert name of venture issuer] will also be subject to certain other obligations not applicable to issuers that are not venture issuers.

The disclosure provided by [insert name of venture issuer] will not necessarily be comparable in some ways to that provided by issuers that are not venture issuers.”.

(3) If the board of directors of the venture issuer has decided to file an interim financial report for an optional interim period, also include the following statement in bold type on the cover page of the report:

Guidance:

(1) *Disclosure regarding mineral exploration, development or production activities on material projects must comply with, and is subject to the limitations set out in, Regulation 43-101 respecting Standards of Disclosure for Mineral Projects. A venture issuer must use the appropriate terminology to describe mineral reserves and mineral resources. A venture issuer must base its disclosure on information prepared by, under the supervision of, or approved by, a qualified person.*

(2) *The disclosure required by this form will not trigger the filing of a technical report under Regulation 43-101 respecting Standards of Disclosure for Mineral Projects unless section 4.2(1)(j) of that regulation applies. However, if a technical report has not been prepared, the disclosure must still be prepared by or under the supervision of a "qualified person", as defined in that regulation.*

Discuss why the venture issuer performed as it did by reference to the principal influencing factors.

(a) Using financial measures from the issuer's GAAP, such as profit or loss, cash flows from operating activities, net assets and earnings per share, discuss the venture issuer's financial condition, changes in financial condition and financial performance in the last financial year, comparing it to the previous financial year.

(b) Include in the discussion

(i) significant elements of profit or loss that do not arise from the venture issuer's continuing operations and the effect on current or future operations,

(ii) causes for any significant changes from period to period in one or more line items of the venture issuer's annual financial statements,

(iii) any seasonal aspects that had or are reasonably expected to have an effect on the venture issuer's financial condition or financial performance,

(iv) the effect of changes in accounting policies.

(c) Include a discussion of key operating statistics and performance measures that management and industry typically use to assess performance of the venture issuer's business and similar businesses.

Guidance

Examples of statistics might include, depending on the industry, revenues, gross margin, EBITDA (earnings before interest, tax, depreciation and amortization), levels of production, average price per barrel, netbacks, finding costs, and operating costs per unit of production.

(d) To the extent that any of the statistics and performance measures required to be discussed in paragraph (c) are "non-GAAP financial measures" the venture issuer must comply with paragraph (e). For the purpose of this section, a "non-GAAP financial measure" is a numerical measure of an issuer's historical or future financial performance, financial position or cash flow that is not required, or permitted, by the issuer's GAAP and that either excludes an amount that is included in the most directly comparable measure calculated and presented in accordance with the issuer's GAAP, or includes an amount that is excluded from the most directly comparable measure calculated and presented in accordance with the issuer's GAAP.

(e) A venture issuer disclosing a non-GAAP financial measure must do each of the following:

(i) disclose how the venture issuer defines the non-GAAP financial measure and, if there have been any changes to how the venture issuer has defined the measure, describe and explain those changes;

(ii) disclose that the non-GAAP financial measure does not have a standardized meaning under the issuer's GAAP and is unlikely to be comparable to financial measures presented by other issuers;

(iii) present together with the non-GAAP financial measure, with at least equal prominence, the most directly comparable measure calculated in accordance with the issuer's GAAP that is presented in its annual financial statements or an interim financial report;

(iv) explain the purpose for which the non-GAAP financial measure is used by management and why management thinks it provides useful information for investors;

(v) provide a quantitative reconciliation of the non-GAAP financial measure to the most directly comparable measure calculated in accordance with the issuer's GAAP that is presented in its annual financial statements or an interim financial report.

Guidance:

IFRS requires disclosure of certain line items and note disclosure beyond the minimum required line items for financial statements and interim financial reports if, for example, those are relevant to an understanding of an issuer's financial position and performance. Further, IFRS permits certain financial measures such as alternative earnings per share if certain conditions are met. The additional disclosures required or permitted by IFRS are not considered "non-GAAP financial measures" and consequently paragraph (e) would not apply. Refer to the CSA Staff Notice 52-306 Non-GAAP Financial Measures and Additional GAAP Measures for further guidance.

(3) **Issuers without Significant Operating Revenue** – If the venture issuer has not had significant revenue from operations,

(a) disclose in table format, for each of the two most recently completed financial years (unless already disclosed in the annual financial statements), a breakdown of the significant components of

(i) exploration and evaluation assets or expenditures,

(ii) expensed research and development costs,

(iii) intangible assets arising from development,

(iv) general and administration expenses, and

(v) any material costs, whether expensed or recognized as assets, not referred to above;

(b) for a venture issuer whose primary business is mining exploration and development, present the information required by paragraph (a) on a property-by-property basis;

(c) disclose all components that exceed the greater of \$25,000 and 20% of the total amount of the class for each of (a)(i) to (v); and

(d) for a venture issuer in the exploration, research or development stage, provide a comparison of the amount spent on executive compensation and general and administrative expenses, whether expensed or capitalized, to, as applicable,

(i) exploration and evaluation assets or expenditures, whether expensed or capitalized

(ii) research and development costs, whether expensed or capitalized.

(1) *When providing forward-looking information in response to the requirements of this section, it is necessary to comply with the requirements of section 37 of Regulation 51-103 respecting Ongoing Governance and Disclosure Requirements for Venture Issuers.*

(3) *In disclosing forward-looking information, venture issuers should consider that*

(a) *Securities legislation contains secondary market civil liability provisions which create a statutory right of action on the part of persons who relied on the forward-looking information if the forward-looking information contains a misrepresentation; and*

(b) *Securities legislation may provide a defence to liability where there was a reasonable basis for drawing the conclusions or making the forecasts or projections set out in the forward-looking information and there is a statement proximate to the forward looking information which contains reasonable cautionary language identifying the forward-looking information and the material factors that could cause results to differ materially from it as well as a statement of material factors or assumptions that were applied in drawing the conclusion or making the forecast or project set out in the forward-looking information.*

(4) *In an effort to develop a potential defence to a secondary market civil liability claim, venture issuers complying with this section should*

- *confirm that there appears to be a reasonable basis for drawing the conclusions or making the forecasts or projections set out in the forward-looking information,*
- *ensure that a statement proximate to the forward-looking information is made which contains reasonable cautionary language which*
 - *identifies the forward-looking information,*
 - *identifies the material factors that could cause actual results to differ materially from the forward-looking information,*

○ *states the material factors or assumptions that were applied in drawing the conclusion or making the forecast or projection in the forward-looking information.*

See for example Regulation 43-101 respecting Standards of Disclosure for Mineral Projects and Regulation 51-101 respecting Standards of Disclosure for Oil and Gas Activities.*

- (b) exercise care, skill or diligence.

If any such requirements apply, briefly describe them.

Guidance:

It is not necessary to provide a lengthy description. It is not necessary to provide a lengthy review of the issuer's disclosure controls and procedures or internal controls over financial reporting.

(7) Disclose what steps, if any, the board takes to satisfy itself that the board, its committees, and its individual directors are performing effectively.

42. Auditor Independence

(1) If the auditor performed services during the most recently completed financial year, other than for audit fees, disclose whether those services were pre-approved by the audit committee. If not, state that in bold type. If they were pre-approved by a pre-approval policy, describe that policy.

PART 10 ANNUAL FINANCIAL STATEMENTS

Guidance:

Because the definition of annual financial statements in Regulation 51-103 respecting Ongoing Governance and Disclosure Requirements for venture issuers includes both the financial statements for the most recently completed financial year and the corresponding statements for the financial year immediately preceding the most recently completed financial year, a venture issuer will generally be required to include audited annual financial statements for the two most recently completed financial years.

48. Required Certificate

- (iii) the certificate is modified, as necessary, to refer to the annual report.

(b) for a mid-year report, Form 52-109F2 of Regulation 52-109 respecting Certification of Disclosure in Issuers' Annual and Interim Filings, as if each of the following applies:

(4) The certificate must be dated and must be signed by the CEO and the CFO. If the individual signing in the capacity of CEO or CFO does not hold the title of CEO or CFO, indicate the individual's title.

(5) If an annual report or mid-year report is revised, the certificate must be redated and resigned by the CEO and the CFO.

49. Date of Certificate

The Disclosure Certificate must be signed and dated as of the date that the annual report, mid-year report, or revised report as applicable, is filed.

50. CEO and CFO Certificate

As [CEO / CFO],

(a) I acknowledge my responsibility for the disclosure of information in this [annual report/mid-year report] including the [annual financial statements/mid-year interim financial report] and management's discussion and analysis.

(b) I confirm I have reviewed the [annual report/mid-year report] to which this certificate is attached, and for greater certainty, all documents and information incorporated by reference into the [annual report/mid-year report] and, based on my knowledge, having exercised reasonable diligence, the [annual report/mid-year report]

[print name and title of CEO]

[print name and title of CFO]

[signature of CEO]

[signature of CFO]

Date: _____

Note to Reader: [insert name of venture issuer], as a venture issuer, is not required to establish and maintain disclosure controls and internal control over financial reporting (as those terms are defined in Regulation 52-109 respecting Certification of Disclosure in Issuers Annual and Interim Filings). This may result in additional risks to the quality, reliability, transparency and timeliness of annual reports, mid-year reports and other disclosures provided by it under securities legislation.

Guidance:

If a venture issuer provides a certificate in the form of section 50, it is not required to discuss in its annual report or mid-year report the design or operating effectiveness of disclosure controls and procedures or internal control over financial reporting. If a venture issuer provides a certificate in the form of section 50, but chooses to discuss in its annual report, mid-year report or other regulatory filings the design or operation of one or more components of its disclosure controls and procedures or internal control over financial reporting, it should also consider disclosing in the same document that:

(a) the venture issuer is not required to certify the design and evaluation of the issuer's disclosure controls and procedures and internal control over financial reporting and has not completed such an evaluation; and

(b) inherent limitations on the ability of the certifying officers to design and implement on a cost effective basis disclosure controls and procedures and internal control over financial reporting for the venture issuer may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

A selective discussion in a venture issuer's MD&A about one or more components of a venture issuer's disclosure controls and procedures or internal control over financial reporting without these accompanying statements will not provide transparent disclosure of the state of the venture issuer's disclosure controls and procedures or internal control over financial reporting.

With respect to the content of certificates, Part 11 requires the annual and mid-year certificates to be filed in the exact wording prescribed by the required form (including the form number and form title) without any amendment. Failure to do so will be a breach of the Regulation.

- (1) If securityholders will be asked to vote at the meeting on any matter other than the approval of financial statements, the election of directors or the appointment of the auditor, describe the matter they will be asked to vote on (and any related groups of matters) in sufficient detail to allow a reasonable securityholder to form a reasoned judgment on how to vote.

Examples of such matters include:

- *alterations of share capital, such as stock splits, consolidations and creation or amendment of classes of shares;*
- *amendments to constating documents and by-laws;*
- *adoption or amendment of equity compensation plans and shareholders' rights plans;*

(2) the voting rights, if any, attached to the securities of any other class of securities of the venture issuer that are the same or greater on a per security basis than those attached to the restricted securities that are the subject of the transaction or that will result from the transaction either directly or following a conversion, exchange or exercise;

(3) the percentage of the aggregate voting rights attached to the venture issuer’s securities that are represented by the class of restricted securities;

(4) any significant provisions under applicable corporate and securities law, in particular whether the restricted securities may or may not be tendered in any takeover bid for securities of the venture issuer having voting rights superior to those attached to the restricted securities, that do not apply to the holders of the restricted securities that are the subject of the transaction or that will result from the transaction either directly or following a conversion, exchange or exercise, but do apply to the holders of another class of equity securities, and the extent of any

rights provided in the constating documents or otherwise for the protection of holders of the restricted securities; and

(5) any rights under applicable corporate law, in the constating documents or otherwise, of holders of restricted securities that are the subject of the transaction either directly or following a conversion, exchange or exercise, to attend, in person or by proxy, meetings of holders of equity securities of the venture issuer and to speak at the meetings to the same extent that holders of equity securities are entitled.
