- (2) Despite paragraph (1)(a), a commodity pool is not required to prepare, file or deliver interim financial statements for a period that is less than three months in length.

## 8.3 Income Statements

In addition to any other matters required by securities legislation, the income statement forming part of the interim financial statements of a commodity pool shall include

- (2) The information required by subsection (1) may be included in the body of the financial statements or in notes to the financial statements.

## 8.6 British Columbia Commodity Pools

In British Columbia, sections 8.1, 8.2, 8.3 and 8.5 do not apply to a commodity pool.

# PART 9 PROSPECTUS DISCLOSURE

## 9.1 Front Page Disclosure

In addition to any other requirements of securities legislation, the front page of a preliminary prospectus and prospectus of a commodity pool shall

- (a) state, in substantially the following words:

" You should carefully consider whether your financial condition permits you to participate in the [commodity pool]. The securities of the [commodity pool] are [highly] speculative and involve a high degree of risk. You may lose a substantial portion or even all of the money you place in the [commodity pool].

The risk of loss in trading [nature of instruments to be traded by the commodity pool] can be substantial. In considering whether to participate in the [commodity pool], you should be aware that trading [nature of instruments] can quickly lead to large losses as well as gains. Such trading losses can sharply reduce the net asset value of the [commodity pool] and consequently the value of your interest in the [commodity pool]. Also, market conditions may make it difficult or impossible for the [commodity pool] to liquidate a position.

The [commodity pool] is subject to certain conflicts of interest.

The [commodity pool] will be subject to the charges payable by it as described in this prospectus that must be offset by revenues and trading gains before an investor is entitled to a return on his or her investment. It may be necessary for the [commodity pool] to make substantial trading profits to avoid depletion or exhaustion of its assets before an investor is entitled to a return on his or her investment.";

- (b) state, for the initial prospectus of a commodity pool, in substantially the following words:

" The [commodity pool] is newly organized. The success of the [commodity pool] will depend upon a number of conditions that are beyond the control of the [commodity pool]. There is a substantial risk that the goals of the [commodity pool] will not be met.";

- (c) state, if the promoter, manager, or a portfolio adviser of the commodity pool has not had a similar involvement with any other commodity pool, in substantially the following words:

" The [promoter], [manager] [and/or] [portfolio adviser] of the [commodity pool] has not previously operated any other publicly offered commodity pools [or traded other accounts].";

- (d) state, if the commodity pool will execute trades outside of Canada, in substantially the following words:

" Participation in transactions in [nature of instrument to be traded by the commodity pool] involves the execution and clearing of trades on or subject to the rules of a foreign market.

None of the Canadian securities regulatory authorities or Canadian exchanges regulates activities of any foreign markets, including the execution, delivery and clearing of transactions, or has the power to compel enforcement of the rule of a foreign market or any applicable foreign laws. Generally, any foreign transaction will be governed by applicable foreign law. This is true even if the foreign market is formally linked to a Canadian market so that a position taken on the market may be liquidated by a transaction on another market. Moreover, such laws or regulations will vary depending on the foreign country in which the transaction occurs.

For these reasons, entities such as the commodity pool that trade [nature of instrument to be traded by the commodity pool] may not be afforded certain of the protective measures provided by Canadian legislation and the rules of Canadian exchanges. In particular, funds received from customers for transactions may not be provided the same protection as funds received in respect of transactions on Canadian exchanges.";

- (e) state, immediately after the statements required by paragraphs (a), (b), (c), and (d), in substantially the following words:

" These brief statements do not disclose all the risks and other significant aspects of investing in the [commodity pool]. You should therefore carefully study this prospectus, including a description of the principal risk factors at page [page number], before you decide to invest in the [commodity pool].";

- (f) if applicable, state that the tax consequences to the commodity pool or its securityholders are not certain; and
- (g) state that the commodity pool is a mutual fund but that certain provisions of securities legislation designed to protect investors who purchase securities of mutual funds do not apply.

## 9.2 Prospectus Disclosure

In addition to any other requirements of securities legislation, the preliminary prospectus and prospectus of a commodity pool shall

- (a) disclose the fundamental investment objectives and strategy of the commodity pool, and how specified derivatives are or will be used in connection with those objectives and that strategy;
- (b) disclose any limitations on the use of specified derivatives by the commodity pool contained in the constating documents, or forming part of the fundamental investment objectives or investment strategy, of the commodity pool, including
- (i) whether the commodity pool has adopted any restrictions on the amount of leverage that the commodity pool may experience at any time, or if there are no such restrictions, a statement to that effect,
  - (ii) a brief explanation of how the commodity pool uses the term "leverage" and the significance to the commodity pool of the restrictions either adopted or not adopted, and
  - (iii) a cross-reference to the disclosure required by section 8.5 to be included in the financial statements of the commodity pool;
- (c) disclose the risks associated with the use or intended use by the commodity pool of specified derivatives and the policies and practices of the commodity pool to manage those risks;
- (d) disclose any existing or potential conflicts of interest between the commodity pool and any promoter, manager, adviser, dealer, broker, any of their respective associates or affiliates, or any of the officers, directors or partners of any of the foregoing, and the steps that will be taken to alleviate any existing or potential conflicts of interest;
- (e) disclose whether an affiliate of the manager or of a portfolio adviser of the commodity pool receives or will receive brokerage commissions arising from trades of the commodity pool;
- (f) disclose if the commodity pool will be wound up without the approval of securityholders if the net asset value per security

falls below a certain predetermined level, and, if so, the net asset value per security at which this will occur;

- (g) provide the disclosure concerning the past performance of the commodity pool that is required to be provided by an investment fund under Item 4 of Part B of Form 81-106F1 Contents of Annual and Interim Management Report of Fund Performance of Regulation 81-106 respecting Investment Fund Continuous Disclosure approved by Ministerial Order 2005-05 dated 19 May 2005, except that:
  - (i) the past performance of the commodity pool in the bar chart prepared in accordance with Item 4.2 of Part B of Form 81-106F1, shall show quarterly, non-annualized returns of the commodity pool over the period provided for in the same Item, rather than annual returns;
  - (ii) the commodity pool may, in the disclosure required by Item 4.3 of Part B of Form 81-106F1, compare its performance to an index if it describes any differences between the commodity pool and the index that affect the comparability of the performance data of the commodity pool and the index;
- (h) include a statement that how the commodity pool performed in the past does not necessarily indicate how it will perform in the future;
- (i) describe the financial reporting that is required of the commodity pool;
- (j) in addition to the front page disclosure required by paragraph 9.1(g), disclose that certain provisions of securities legislation designed to protect investors who purchase securities of mutual funds do not apply to the commodity pool, and disclose the implications of this;
- (k) describe the redemption procedures and requirements of the commodity pool, making specific reference to the adoption of any policies established under this Regulation or Regulation 81-102;
- (l) disclose, in the "Risk Factor" section, any information that may bear on a securityholder's assessment of risk associated with an investment in the commodity pool, including
  - (i) any risks associated with those commodity pools structured as trusts that purchasers of the securities offered may become liable to make an additional contribution beyond the price of the securities, and
  - (ii) any risks associated with the loss of limited liability of a limited partner of a commodity pool that is structured as a limited partnership;
